## Description of Work:

- 1.1. The Department of National Defence (DND) requires the services of a team of two Senior Computer, Application Support Specialists on a temporary basis to work with the Modernized Command & Control Information Systems (MC2IS) project in support of the Directorate of Space requirements (DSR) for interoperability with the United State Space Force (USSF). The purpose of this Temporary Helps Services (THS) is to seek additional temporary to demonstrate interoperability with the USSF/SPACOMMAND in support of Space Domain Awareness (SDA) use case through the MC2IS NORAD Modernization initiative. The initiative will deliver a prototyped demonstration of cross domain guards, enabling bi-directional data replication and transport across security domains leveraging the NORAD cloud.
  - 1.2. In addition, the THS will develop knowledge regarding SDA information exchange requirements (IERs) and network interoperability solutions, upon the current MC2IS demonstrator environment currently leveraging Palantir products in a DND cloud environment.
- **The work is currently not being performed by a contracted resource.**
  - **Work under this requirement is to be completed on site.** Remote work is at the discretion of the technical authority.

**Security Requirement:** *Common PS SRCL #19 applies.*  
**Minimum Corporate Security Required:** *Designated Organization Screening (DOS)*  
**Minimum Resource Security Required:** *Secret*
