AMENDMENT 001

Request for Proposal: 100024014

This amendment #001 is raised to answer the bidders' question.

Question 1

Regarding the Mandatory Criteria 1, M1 at page 19, can you clarify, what is meant by the following statement:

"The Bidder MUST demonstrate their knowledge and experience in the assessment and application of construction costs (labor and material) and timelines in both official languages by providing a description of at least one project in each official language within the last 5 years."

Is the intent that we describe, in either French or English, one project that we have completed in English and one project that we have complete in French?

OR

Is the intent that we describe, in English, one project we have completed in English; and describe, in French, one project we have completed in French?

Answer 1

We would like for the bidder to present their experience in the following format:

- One (1) project completed in English. The description should be written in English.
- One (1) project completed in French. The description should be written in French.

However, we will accept a bid that presents the description of both projects in only one of the official languages as long as they proof that they have experience working in both official languages.

All other terms and conditions of the solicitation remain the same.
