RETURN BIDS TO:**RETOURNER LES SOUMISSIONS À:**

See Section 1.

Voir Section 1.

STANDARD REQUEST FOR BID**INVITATION À SOUMISSIONNER - STANDARD**

The Bidder offers to provide to Canada the goods, services or both listed in the bid solicitation in accordance with the conditions set out in the bid solicitation and the prices set out in the bid.

This bid solicitation is issued in accordance with the conditions of the Supply Arrangement E60PQ-140003/PQ.

Le soumissionnaire offre de fournir au Canada les biens, services ou les deux énumérés dans la demande de soumissions aux conditions prévues dans la demande de soumissions et aux prix indiqués dans la soumission.

Cette demande de soumissions est émise conformément aux conditions de l'arrangement en matière d'approvisionnement E60PQ-140003/PQ.

Amendment 003 is raised to answer questions from Industry:

Questions & Responses v3

QUESTION 1: Reference: Cat.1a – Panel matrix
Are the glass elements to be clear or frosted?

RESPONSE 1:
Frosted.

QUESTION 2: Reference: Cat.1b – Tag SU-1
This surface would be best represented by GOCUID 1bFFHREN24L60WNOLNY as it is a panel mounted surface. Gable-style supports can be provided which are a part of the panel system.

RESPONSE 2:
We still want to have one side panel-mounted and one side full gable.

QUESTION 3: Reference: Cat.1b – Tag SU-2
This surface would be best represented by GOCUID 1bFFHREN24L84WNOLNY as it is a panel mounted surface. Gable-style supports can be provided which are a part of the panel system. Modesties are not recommended for this application, as shown in typical WS-A2.

RESPONSE 3:
Modesty can be removed. We still want to have one side panel-mounted and one side full gable.

QUESTION 4: Reference: Typical WS-A1 & Cat.1b - Tag SU-4
The L-shaped panel-frame arrangements shown in typical WS-A1 are not recommended for stability and safety reasons, as per the manufacture's guidelines. We recommend using base-height panels to connect these stations, which would also provide sufficient support for the return surfaces tagged 'SU-4' and could connect all power to one base feed.
Please confirm if this acceptable and update the GOCUID to 1bFFHREN24L78WNOLNY for a panel-mounted surface.

RESPONSE 4:
Yes, SU-4 can be replaced to be panel-mounted, but last surface will need to have a full gable at the end.

QUESTION 5: Reference: Cat.2 – Tag SU-6
Suspended modesty panels are not apart of the height-adjustable benching system as described by the SA. We also do not recommend modesties in this application as they would interfere with the use of the benching system and the placement of many accessories. Please remove this item from the description.

RESPONSE 5:
We would like to keep a modesty panel at the benching since it adds more privacy.

QUESTION 6: Reference: NSA- Tag CT-1 Cable tray
The total number of height-adjustable surfaces in this bid is 33, when including all the surfaces of the benching system. Please update the quantity of cable trays to 33.
Alternatively, these cable trays can be included in the description notes of items SU-3/SU-5/SU-6 as this qualifies as an upgrade to the horizontal wire management that is already required with each table.

RESPONSE 6:
Please include one cable tray per surface in the description of each category (SU-3, SU-5, SU-6) to replace the need for the NSA entry CT-1.

All other terms and conditions remain the same and unchanged.
