This amendment is raised to address the following:

- To respond to questions received during the solicitation period; and
- To revise the solicitation accordingly, as applicable.

### **Questions and Answers**

Question 1:

In 5.1.1, then section 2g) "RPAS must include a spotlight payload with a minimum brightness of 2500 lumens".

Can you please review the accuracy of this lumen requirement.

The predecessor drone, the Mavic 2 Enterprise had a spotlight attachment directly from DJI, with 2400 lumens.

But for the current bid, the requirements are indicating the drone is a Mavic 3 Enterprise & Thermal. DJI doesn't make an attachment, but a 3rd party company CZI does. **The CZI GL10 has 1830 lumens.**

This is likely what the correct lumen count is supposed to be, for minimum requirements because we are not sure that any Mavic 3 spotlight attachment of 2500 lumens exists as a product.

Answer 1:

To not preclude any potential bidders and the availability of spotlight attachments, we will accept a minimum brightness of 1800 lumens.

### **SOLICITATION REVISIONS**

1) On page 24,5.1.1 STREAM 1 RPAS, 2. PAYLOAD MINIMUM SPECIFICATIONS, g)

DELETE: RPAS must include a spotlight payload with a minimum brightness of 2500 lumens.

INSERT: RPAS must include a spotlight payload with a minimum brightness of 1800 lumens.

2) On page 30,1.1 STREAM 1 RPAS, Mandatory Criteria, M14

DELETE: RPAS must include a spotlight payload with a minimum brightness of 2500 lumens.

INSERT: RPAS must include a spotlight payload with a minimum brightness of 1800 lumens.
