ANNEX A - STATEMENT OF WORK

Correctional Service Canada has a requirement to provide prevention interventions such as educational learning opportunities and support services in order to reduce the transmission of infectious diseases to federal inmates in New Brunswick (Stream 1) and in Nova Scotia (Stream 2) in an as and when requested basis. The work will involve the following:

1.1 Background:

The Correctional Service Canada (CSC) is the federal government agency responsible for administering sentences of a term of two years and more, as imposed by the Courts. CSC is responsible for managing institutions of various security levels and supervising offenders under conditional release in the community.

CSC operates under three levels of management: National, Regional, and Institutional/District Parole Offices. The National Headquarters in Ottawa performs overall planning and policy development for the Service, while each of the five Regional Headquarters implement CSC activities within their respective Regions.

CSC's Health Services Sector enables CSC to attain its mission and mandate by providing clients with efficient and effective health services that encourage client's responsibility, by promoting healthy reintegration and contributing to safe communities.

CSC's Health Services views time in custody as an important opportunity to intervene and improve the health of our population. Consistent with its transformation agenda, CSC recognizes that health outcomes are a shared responsibility between service providers and inmates. Inmates must be involved in taking responsibility and proactive measures to safeguard their health, which includes the importance of adopting harm reduction practices, healthy living education, addiction awareness and support, education on the prevention of infectious diseases in order to improve the client's health while in custody as there are potential benefits for all Canadians.

CSC Health Services has recently adopted a patient Centered Care Model, putting the patient at the center, intervening to empower the patient by improving their confidence and increasing their health related knowledge to persuade them to reduce risk taking behaviors and adopt healthy lifestyles.

Correctional Service Canada is mandated to support clients in preventing and managing chronic health conditions. Health promotion interventions such as providing education, awareness and support on topics such as; harm reduction practices, drug addictions and transmission of infectious diseases are key activities in preventing and managing health conditions.

Many people who experience addiction or substance use issues also experience stigma and discrimination. There is still much to learn about the complexities of substance use and addiction.

It is also CSC's policy to provide clients access to outside service organizations in the eventuality of continuity of care and community support after release. Community connections and involvement in meaningful activities can contribute to individuals becoming less likely to have substance use or addiction related issues.

The first objective is to provide federal inmates in New Brunswick (Stream 1) and in Nova Scotia (Stream 2) client-centered education and support services on the topics of harm reduction associated with blood borne sexually transmitted infections (BBSTI), addiction and substance use in order to prevent the negative consequences of substance use and improve health **on an as and when requested basis**.

The Offeror must deliver the one on one sessions in English or French as per the choice of the individual and deliver the group sessions or workshops in a bilingual format and ensuring equal availability of materials in both English and French.

1.7 Cancellation of Sessions:

Due to the nature of the environment in which the programs will be delivered, the scheduled dates of the sessions will be subject to change due to urgent institutional circumstances such as institutional lockdowns, closures due to inclement weather, security requirements, or other emergency situations at no cost to CSC. In these cases, the Project Authority or his/her representative will advise the Offeror and sessions will be rescheduled. In the event that the Offeror must cancel a session, the session date must be rescheduled and replaced within three weeks if the need for the session remains.

1.8 Work Schedule:

In the event that an institution is in lock down mode or in the event of a strike, it is agreed by both parties that the Offeror will be responsible to call the institution the day of a session to ensure that the institution is open. If in the event the Offeror calls and is advised that the institution is open, but by the time the Offeror has arrived the institution is in lockdown, the Offeror will then be paid as stated in basis of payment. The Offeror will be supplied with a list of all telephone numbers for institutions they will be visiting.

1.9 Authorization:

No work can be started until authorization is given to do so by the Project Authority. All work will be performed subject to the inspection and acceptance by the Project Authority.
