Title:
Fire & Life Safety Equipment Inspections & Maintenance – Manitoba Field Unit

Annex B

BASIS OF PAYMENT

Financial Bid Submission Requirements

- (a) Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.
- (b) Bidder must submit its financial bid in accordance with this Basis of Payment.
- (c) The bid must be submitted in Canadian dollars, Applicable Taxes excluded, FOB destination, Canadian customs duties and excise taxes included.
- (d) Total Combined Evaluated Estimated Bid Price Calculation:
 - a. For the purposes of evaluation, the evaluated bid price will be comprised of the combined total of Table A through Table E.

****To be completed by the Bidder****

Table A - Contract Year 1 – Contract Award to January 31, 2025 – Firm Unit Price(s)

In consideration of the Contractor completing all of its obligations under the Contract, the Contractor will be paid firm unit price(s) in Canadian funds for all costs, including but not limited to all professional, technical, and administrative fees and costs as required to fulfill the requirements of *Annex A – Statement of Work* as defined.

1. Estimated Quantities

Note: Estimated quantities will reflect the total amount of inspections required on the site throughout the year. The requirements for the larger inspections (aka. multi-year and annual inspections) will include the requirements set out for smaller inspections (aka. weekly, monthly, etc. inspections), therefore the quantity may be smaller than expected.

Ex: item 1.1.4 Monthly – Automatic Sprinkler System. The total number of monthly inspections required for this system is 8 rather than 12. This is because the monthly requirements for the sprinkler system must also be completed in the quarterly, semi-annual and annual inspections. Since those inspections fall within the same timeframe as the monthly inspection you can replace the smaller inspection that month with the larger one that is also required.

1. Required Services (Inspections, Testing and Maintenance):						
Item No.	Schedule	Description	Unit of Measure	Estimated Quantities (EQ)	Firm Unit Price(s) (PU)	Extended Total(s) (EQ x PU)
1.1	LOWER FORT GARRY NHSC					
1.1.1	Weekly	Weekly – Diesel Fire Pump	Per Inspection	48	\$	\$
1.1.2		Weekly – Electric Fire Pump	Per Inspection	40	\$	\$
1.1.3	Monthly	Monthly – Automatic Sprinkler System (Dry Pipe) <i>Includes weekly inspection requirements</i>	Per Inspection	8	\$	\$
1.1.4		Monthly – Electric Fire Pump <i>Includes weekly inspection requirements</i>	Per Inspection	11	\$	\$
1.1.5	July 2024 January 2025	Quarterly – Automatic Sprinkler System (Dry Pipe) <i>Includes monthly inspection requirements</i>	Per Inspection	2	\$	\$
1.1.6		Quarterly – Diesel Fire Pump <i>Includes weekly inspection requirements</i>	Per Inspection	2	\$	\$
1.1.7		Quarterly – Standpipe and Hose Systems	Per Inspection	2	\$	\$

Title:
Fire & Life Safety Equipment Inspections & Maintenance – Manitoba Field Unit

Table D - Option Year 3 – February 1, 2027 to January 31, 2028 – Firm Unit Price(s)

In consideration of the Contractor completing all of its obligations under the Contract, the Contractor will be paid firm unit price(s) in Canadian funds for all costs, including but not limited to all professional, technical, and administrative fees and costs as required to fulfill the requirements of *Annex A – Statement of Work* as defined.

4. Estimated Quantities

Note: Estimated quantities will reflect the total amount of inspections required on the site throughout the year. The requirements for the larger inspections (aka. multi-year and annual inspections) will include the requirements set out for smaller inspections (aka. weekly, monthly, etc. inspections), therefore the quantity may be smaller than expected.

Ex: item 1.1.4 Monthly – Automatic Sprinkler System. The total number of monthly inspections required for this system is 8 rather than 12. This is because the monthly requirements for the sprinkler system must also be completed in the quarterly, semi-annual and annual inspections. Since those inspections fall within the same timeframe as the monthly inspection you can replace the smaller inspection that month with the larger one that is also required.

4 Required Services (Inspections, Testing and Maintenance):						
Item No.	Schedule	Description	Unit of Measure	Estimated Quantities (EQ)	Firm Unit Price(s) (PU)	Extended Total(s) (EQ x PU)
4.1	LOWER FORT GARRY NHSC					
4.1.1	Weekly	Weekly – Diesel Fire Pump	Per Inspection	48	\$	\$
4.1.2		Weekly – Electric Fire Pump	Per Inspection	40	\$	\$
4.1.3	Monthly	Monthly – Automatic Sprinkler System (Dry Pipe) <i>Includes weekly inspection requirements</i>	Per Inspection	8	\$	\$
4.1.4		Monthly – Electric Fire Pump <i>Includes weekly inspection requirements</i>	Per Inspection	11	\$	\$
