3. Former Public Servants

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts awarded to FPSs, bidders must provide the information required below before contract award. If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to

provide the information. Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the bid non-responsive.

Definitions

For the purposes of this clause, "former public servant" is any former member of a department as defined in the [Financial Administration Act](#), R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- a. an individual;
- b. an individual who has incorporated;
- c. a partnership made of former public servants; or
- d. a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity.

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the [Public Service Superannuation Act](#) (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the [Supplementary Retirement Benefits Act](#), R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the [Canadian Forces Superannuation Act](#), R.S., 1985, c. C-17, the [Defence Services Pension Continuation Act](#), 1970, c. D-3, the [Royal Canadian Mounted Police Pension Continuation Act](#), 1970, c. R-10, and the [Royal Canadian Mounted Police Superannuation Act](#), R.S., 1985, c. R-11, the [Members of Parliament Retiring Allowances Act](#), R.S. 1985, c. M-5, and that portion of pension payable to the [Canada Pension Plan Act](#), R.S., 1985, c. C-8.

Former Public Servant in Receipt of a Pension

As per the above definitions, is the Bidder a FPS in receipt of a pension? **Yes () No ()**

If so, the Bidder must provide the following information, for all FPSs in receipt of a pension, as applicable:

- a. name of former public servant;
- b. date of termination of employment or retirement from the Public Service.

By providing this information, Bidders agree that the successful Bidder's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with [Contracting Policy Notice: 2019-01](#) and the [Guidelines on the Proactive Disclosure of Contracts](#).

Work Force Adjustment Directive

Is the Bidder a FPS who received a lump sum payment pursuant to the terms of the Work Force Adjustment Directive? **Yes () No ()**

If so, the Bidder must provide the following information:

- a. name of former public servant;

- g. number and amount (professional fees) of other contracts subject to the restrictions of a work force adjustment program.

4. Enquiries – Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than five (5) business days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

5. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Nova Scotia.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

6. Bid Challenge and Recourse Mechanisms

- (a) Several mechanisms are available to potential suppliers to challenge aspects of the procurement process up to and including contract award.
- (b) Canada encourages suppliers to first bring their concerns to the attention of the Contracting Authority. The [CanadaBuys](#) website, under the heading "[Following up on a bid](#)" contains information on potential complaint bodies such as:
 - Office of the Procurement Ombud (OPO)
 - Canadian International Trade Tribunal (CITT)

ANNEX A – Statement of Work

1. Introduction:

The Correctional Service of Canada (CSC) Health Services require the services of a psychologist at Springhill Institution.

The psychologist will provide psychological risk assessment services and collaborate with the interdisciplinary health services team that includes, but is not limited to nursing, psychology, social work, occupational therapy, and other allied healthcare professionals. Collaboration with the case management team is also essential and in community sites, the treatment/supervision team also includes the Parole Officer Supervisor, Parole Officer, and the CSC staff health professionals and/or the Project Authority.

2. Background:

- 2.1 CSC has a legal obligation, under the Corrections and Conditional Release Act (CCRA), to “provide every inmate with essential health care and reasonable access to non-essential health care”.
- 2.2 The Commissioner’s Directives 800 series are the key references on essential health services covering Clinical services, mental health, and public health services.
- 2.3 The mission of Health Services is to provide offenders with efficient and effective health services that **encourage individual responsibility, promote healthy reintegration, and contribute to safe communities.**
- 2.4 Consistent with its transformation agenda, CSC recognizes that health outcomes are a shared responsibility between service providers and offenders. Offenders must be involved in taking responsibility and proactive measures to safeguard their health, which includes mental health.
- 2.5 In institutional settings, Health Services are provided in ambulatory Health Service Centres in institutions, regional hospitals, and regional treatment / psychiatric centres. Incarcerated offenders may have to go to the community for emergency services, specialized health care services and for hospitalization that cannot be accommodated in CSC’s regional hospitals. In CSC, health care is provided by a wide range of regulated and non-regulated health professionals.
- 2.6 In broad terms health care means medical, dental, mental health care and public health services. During the period of incarceration, offenders are provided with a range of coordinated health services that are accessible, affordable, and appropriate to the correctional environment.

3. Objective:

- 3.1 Provide psychological risk assessment services as requested by the Project Authority at Springhill Institution as a psychologist.

3.2 Treatment Orientation

The treatment/counselling orientation utilized by Correctional Service Canada (CSC) is cognitive-behavioural. All psychological services offered to offenders by the contractors must be evidence-based with known application to offender populations. The principal focus of services will depend on the nature of the referral and the offender's needs. Although the usual objectives of treatment include the reduction of risk to reoffend, a priority should also be

placed on the amelioration of the offender's mental health and emotional or behavioural functioning, including feelings, attitudes, beliefs, and behaviours that moderately to severely impact or interfere with daily functioning. The offender's motivation for the index offence (particularly in cases of sexual offenders) should be addressed in this context.

4. Performance standards:

4.1 The Contractor must take into account gender, cultural, religious and linguistic differences and be responsive to the special needs of women and Indigenous People.

4.2 Quality Assurance of Psychological Services:

- a. The Contractor must provide all services in compliance with federal and provincial legislation and standards, provincial and national guidelines, practice standards and CSC Policy/Guidelines including the CSC Mental Health Policy and guidelines.
- b. The Contractor must provide services in accordance with the ethical and professional practice standards of the applicable provincial regulatory body, the Canadian Code of Ethics for Psychologists and relevant legislation guiding the practice of Psychology within correctional settings.
- c. The Contractor is expected to consult with the Project Authority to ensure that all psychological practices are consistent with the relevant and most current legislation, practice standards and policies.
- d. On a yearly basis or as determined by the Project Authority, the Project Authority or designate will review a sample of reports to determine if they meet CSC and professional standards for psychological reports. If a report is judged to be substandard, the Contractor must amend the report as requested at no extra cost to the Crown. The amendment must be completed, and the amended report submitted to the Project Authority within one (1) week following the date when the amendment was requested.
- e. Timeliness of the submission of all reports will be monitored on an ongoing basis by the Project Authority. Timeliness will form part of the assessment of the Contractor's work.

4.3 The following is a list of key relevant legislation and CSC Policy/Guidelines but should not be considered an exhaustive list. CSC's policies and guidelines can be found on the CSC internet website at www.CSC-SCC.GC.ca or available in hard copy.

- b. The Contractor must provide this documentation to the Project Authority or delegate for placement in the offender's electronic health record and, at the request of the Project Authority, the Offender Management System (OMS). Placement of reports on the electronic health record and in OMS will normally be carried out by CSC staff. However, the Project Authority may, at their sole discretion, request that the Contractor place reports in the offenders' electronic health record and OMS.
- c. As an accountability and quality assurance measure, the Project Authority will periodically review the Contractor's documentation for compliance with contract requirements, consistency, and completeness.

4.5 Limits of Confidentiality

- a. Some psychological reports will be available to anyone with access to the Offender Management System (OMS), on a need-to-know basis. As the limits of confidentiality are broad, as described in the Guideline 800-3 Consent to Health Service Assessment, Treatment and Release of Information, before interviewing the offender, the Contractor must ensure that the limits to confidentiality have been communicated and that the offender has consented - in writing - to the assessment and/or counselling process.
- b. Contractors must use CSC Form 4000-18: Consent to Participate In / Receive Health Services for all cases and ensure that the form, signed by the offender and a witness, is included with all reports. (The Project Authority will supply copies of this form to the Contractor upon request). The Contractor must document the consent process in all reports by the Contractor.
- c. Relative to the assessment of risk, in the event that the offender refuses to provide consent, the Project Authority may request that Contractor complete the risk assessment process using all available information.

4.6 Information Sharing – Psychology Reports

- a. Unless pre-arranged with the Project Authority, the Contractor must share all reports that are written for Case Management purposes (including for the Parole Board of Canada) and/or those that contribute to decision-making with the offender by the author of the report. Correctional Service Canada policy specifies that the author and offender sign and date the report at the time that the report is shared. The Contractor must advise the Project Authority if he/she is unable to share the reports and coordinate signatures with the offender. At the discretion and prior approval of the Project Authority, CSC will assume the information sharing and offender signature responsibility.
- b. The Contractor must submit all reports in type written format (Microsoft Word compatible). The Contractor must use a CSC-issued laptop to upload an electronic copy of the signed report in the Electronic Health Record and in OMS, as applicable. At the request of the Project Authority, the Contractor must send a signed electronic copy of the report via a CSC-issued laptop on the CSC network via an encrypted e-mail to a staff designated by the Project Authority who will enter the report in those systems.

- c. Completed psychological reports are to be signed by the Contractor, a psychologist registered for autonomous practice with adults in the province of practice. The Contractor assumes all responsibility for report content.

- d. If amendments to reports are requested by the Project Authority, the Contractor will respond to these requests and make amendments to the report as necessary within one (1) week of notification. If the request for an amendment originates with the offender, the institution will facilitate contact between the offender and the Contractor by phone as necessary. However, should the Project Authority determine that the situation requires direct intervention by the Contractor, the Contractor will arrange to interview the offender in person at the institution.

4.7 Handling and Safeguarding CSC Sensitive or Protected Information

- a. For Services Provided in an Institution or Community Site

All of the original offenders' health care records, as well as all CSC protected or sensitive information, must remain at Springhill Institution.

The Project Authority will provide an encrypted laptop to the Contractor for documentation in CSC's Electronic Health Care Records. The Project Authority will obtain all necessary CSC internal approvals and must comply with requirements for taking CSC assets off site. The Project Authority will also ensure the Contractor is aware of all CSC requirements regarding care and protection of CSC assets and IT security requirements including those associated with the use of Portable Data Storage Devices (encrypted laptops).

5. Tasks:

- 5.1 The Contractor must provide mental health services, as requested by the Project Authority, in accordance with the National Essential Health Services Framework including any amendment to this Framework issued by CSC during the contract period and any optional period if and when exercised by CSC.

These services include, but are not limited to the following:

- b. Participate in CSC training, including orientation to CSC and CSC's risk assessment requirements as requested;
- c. Provide consultation services for the resolution of CSC internal offender grievance and investigative processes as requested; and
- d. Prepare and submit psychological assessment and other reports as requested by the Project Authority.

The Contractor must provide a verbal report to the Chief, Mental Health Services and/or other pertinent staff immediately subsequent to the interview for any cases that are at risk of suicide/self-harm or are obviously mentally ill or unstable.

5.2 Psychological Risk Assessment Services:

- a. The Contractor must perform and submit psychological risk assessment reports to the CSC Project Authority and designate CSC representative for disclosure to third parties, including the Parole Board of Canada;

- b. Dates and times for offender interviews will be set-up by mutual agreement between the Project Authority and the Contractor;
- c. The Contractor must conduct assessment interviews, administer all psychological tests (unless prearranged for self-report measure – see part f, below), interpret test results, and review offender files. Relevant files include Sentence Management, Case Management, and health files. However, on occasion and if relevant to the specific case, the Contractor must review the Security Intelligence files or, alternatively, consult with Health Care Professionals or Security Intelligence staff, or both about the client. The Contractor must also consult other CSC personnel about the client's referral or behaviour or both if necessary. The Contractor must integrate information obtained through testing, file review, clinical interview, and if relevant, staff member interviews, into a comprehensive psychological risk assessment report;
- d. The Contractor must provide the Project Authority and designates with all original test data;
- e. The Contractor must use the file-based Statistical Instrument in Recidivism – Revised (SIR-R) test results if available on file (the SIR-R does not apply to Indigenous and Women offenders), at least one other clinician rated actuarial measure measuring risk and needs that has been shown to be reliable and valid for use with offender populations according to published work. The Contractor may use measures of personality and intellectual functioning. The Contractor must interpret all tests in a standardized manner using the norms supplied only by the test publisher or author, or both. Placement of percentiles tests scores in reports is acceptable when deemed necessary by the Contractor, as part of the standardized test reporting process, or when requested by the Project Authority. Reports must not contain raw test scores under any circumstances.
- f. In the event that the Contractor negotiates with a particular site to have CSC staff administer self-report measures including those assessing personality and intellectual functioning, or to have them provide recent relevant scores from in-house test administration, and thus does not administer these tests, the Contractor shall apply a discount of 5 % per assessment, for each relevant case.
- g. Psychological Risk Assessment reports must comply with the following requested content and format. Sections may be added to the standardized format according to case-specific needs. Please note that this format is not necessarily all-inclusive, but represents the minimum number of areas to be covered:
 - i. **Demographic information:** Full name, age, date of birth, FPS number and ethnicity if relevant;
 - ii. **Reason for Referral:** Specific referral criteria, source and date of referral, document that the limits of confidentiality (informed consent) have been discussed with the offender, sharing of information;
 - iii. **Interview Information:** Date(s) seen, location of interview and the length of the interview(s);
 - iv. **Documentation Reviewed:** Indicate briefly what critical documents were reviewed for the assessment as well as what critical information or documents were, or were not, available to the author;
 - v. **Brief Criminal History:** A one to two paragraph synopsis of the criminal history, making reference to key files and documents. Include a brief overview/description of current offenses (official and offender versions; if they differ, otherwise indicate whether offender accepts official version), victim impact statements (if available), patterns/dynamics involved in or influencing criminal and/or offending behaviors(s) and the offender's understanding of these dynamics/patterns;
 - vi. **Institutional and/or Community Adjustment:** A one to two paragraph synopsis of institutional and/or community adjustment, making note of a reference to the files for the interested reader should detailed information be required. Includes as applicable adjustment to the prison setting (e.g., relationships with peers, program involvement, misconducts, etc.) and adjustment/functioning in the community (e.g., employment, supports, programming, suspensions, etc.).
 - vii. **Brief Psychosocial/Relevant History:** Provide the elements of the history which contribute to the analysis of risk. Include, as applicable, a brief overview of family,

marital, school, employment, psychiatric/mental health, substance abuse, behavioural and adjustment problems, medical injuries, and impairments. Given the need for brevity, the focus should be on elements directly relating to risk while making note of a reference to the files for the interested reader can access should more detailed information be required.

- viii. **Interview Impressions/Mental Health:** Comment on presentation during interview, current mental and emotional functioning, a brief overview of mental health history, including history of self-harm (if applicable) as well as an assessment of self-harm risk and management strategies (if applicable) and any circumstances that would increase this risk. Management strategies for other mental health issues should be provided as applicable.
- ix. **Summary of Previous Assessments:** A brief summary of findings of previous psychological and/or psychiatric risk assessment reports with a focus on patterns of and antecedents of crime (dynamic and static risk factors), and offence dynamics and the offender's understanding of these dynamics.
- x. **Cognitive Functioning and Personality:** A brief synopsis of psychological tests administered and their validity, interpretation, and additional information where appropriate and applicable.
- xi. **Treatment Needs/Responsivity:** Identify treatment needs areas specifically related to the offender's risk, areas of strengths as well as the relationship between risk and need. The type and intensity of intervention required, prioritization of treatment needs, special needs with respect to treatment delivery, and responsivity factors should be described. This typically involves consideration of issues such as age, ethnicity, cognitive deficits and/or learning style, interpersonal style, mental health, motivation and prior treatment experiences as applicable. The Contractor should also document indicators/examples of behavioral and attitudinal changes since incarceration in both positive and negative directions as applicable.
- xii. **Assessment of Risk, Risk Management Strategies and Recommendations:** The results of the actuarial measures (both static and dynamic) used in the current assessment must be summarized in this section and must include an overall statement of risk that is congruent with guidelines, or a current manual (if applicable) and empirical data associated with the tool(s) that was used. Reporting of percentile scores is acceptable while reporting of raw scores in the report is not acceptable under any circumstances. If applicable, an explanation should be given of any significant variance between the current results and those reported in earlier reports. This section of the report should also include an opinion on how risk could be best managed. This should reflect both actuarial and clinical factors, identification of risk factors and protective factors, assessment of institutional and community risk issues, and case-specific risk management strategies, including critical aspects of a relapse prevention plan, if applicable, and referrals to correctional programs, psychiatry, training programs, etc.

The offender's ability to function in reduced security and/or on conditional release (including, but not limited to Statutory Release) should be considered, recognizing not only their personal needs, but also the community's safety.

The Contractor should comment on ongoing treatment needs, whether special conditions such as abstinence from drugs or alcohol would be required, or any special residential, outpatient or other welfare needs that should be met in preparation for release or as a part of reintegration.

If the offender's behavior begins to deteriorate, the Contractor should render an opinion on what would be the kinds of situations within the community to which the offender would become most vulnerable. As well, if the offender is on medication, the Contractor should advise what would be the likely early signs of the offender's failure to maintain to medication as prescribed and what would be the general, early signs of

deterioration in conduct and whether or not this might indicate a drift back into criminal behavior.

xiii. Offender and Contractor Signature Block: The Contractor must sign the report and copies. Unless pre-arranged with the Project Authority, the Contractor must share the information with the offender and request that the offender sign the report to acknowledge that the information has been shared. CSC will distribute copies of the report in accordance with policy requirements.

- h. The Contractor must only make recommendations for mental health counselling in instances where the offender is at acute risk of self-harm or harm to others, where there is a clear need for such counselling to assist the offender in maintaining mental and emotional stability or as it pertains to criminogenic factors and risk. Recommendations for counselling should be generic as to the practitioner who will be providing the service and for community release cases must take into account the offender's motivation (i.e., motivated offenders will not need this as a condition of parole). Should it be felt that mental health counselling must be a condition of parole, it must be established in the report that:
 - i. The offender needs such counselling for safe reintegration; and
 - ii. It is necessary to impose such a condition to ensure that the offender participates. All recommendations for counselling must include the reason for the need for this service, the goals, and comments on the possible duration.
- i. The Contractor must share the final report with the assessed offender. The Contractor must document that information sharing has occurred by having the offender sign and date the original report. If the offender refuses to sign, the Contractor must note this on the report and information sharing requirements will be considered to have been met.
- j. The Contractor must advise the Project Authority if they are unable to share the reports and coordinate signatures with the offender. At the discretion and prior approval of the project authority, CSC will assume the information sharing and offender signature responsibility.
- k. The Project Authority or designate will refer any questions or concerns the offender has on the report back to the attention of the Contractor. While under contract with CSC, the Contractor must answer questions posed by an offender regarding a report for a two (2) year period after sharing the report.
- l. The Contractor must submit completed reports to the Project Authority or designate no later than four (4) weeks from the date of referral. The Contractor must share the completed report with the offender no later than 2 weeks after initially interviewing the offender. Upon request of the Contractor, and at the sole discretion of the Project Authority, either or both of these deadlines can be extended for a period not exceeding four (4) weeks.
- m. The CSC Mental Health Department will enter finalized psychological risk assessment reports into the electronic health record and OMS and ensure that a copy has been share-printed to the Parole Board of Canada.
- n. If requested by the Project Authority or designates, the Contractor must submit a completed emergency risk assessment no later than five (5) business days from the date of referral.
- o. CSC is required to complete Judicial Review Risk Assessments for some offenders. At the request of the Project Authority, the Contractor must complete a Judicial Review Risk Assessment and assume any future court costs related to the case assessed.
- p. The Contractor must collect information related to the dynamics of the offence, identify treatment needs and risk factors and determine the sexual offender's suitability for individual or group treatment programming. These assessments can also be carried out at intake or pre-release. When an assessment of a sexual offender is requested, the Contractor must provide, in addition to the above content, a comprehensive description of psycho-sexual development, sexual misconduct and offenses.
- q. Specific content references to be included but not limited to in this description would be: history and development of sexual behavior, information pertaining to prior child abuse, domestic abuse or violence against women perpetrated by the offender whether sexual or otherwise, information pertaining to co-offending and the relationship with the current sexual offense or

sexual offense pattern, any attitudes supportive of sexual offending and sexual abuse, relationship problems particularly as they relate to intimacy deficits and social competence, factors relevant to their sexual offending (i.e., sexual self-regulation, intimacy issues, general self-regulation), general antisocial characteristics and psychopathology that may influence sexual offending and misbehaviour, and relevant medical history. Previous assessment results, including assessment of deviant sexual preference and prior programming results should also be considered. Psychological risk assessments of sexual offenders should attend to risk variables based on empirically based, clinician-rated measures of actuarial, static, and dynamic risk that focus on sex offence specific factors where possible.

- r. For male sex offenders, it is mandatory for the Contractor to use a clinician rated tool that contains static items and has been shown to be reliable and valid for all sexual offender risk assessments (including non-contact offenders, but not offenders exclusively involved in child pornography; e.g. STATIC-99R). Dynamic risk must be assessed using a clinician rated actuarial measure that has been shown to be reliable and valid (e.g., STABLE-2007, VRS-SO or the RSVP). For cases where there is currently limited data specific to that population (e.g., child pornography only offenders) then the Contractor must use a measure that is based on the available evidence (e.g., CPORT). No sex offending risk and recidivism actuarial measures are to be used for women sex offenders. The use of a general recidivism risk measure such as the LS/CMI could then be used, as well as in some cases the HCR-20 to assess the risk of violent recidivism (which generally includes sexual recidivism).

5.3 Subcontracting

- a. At the discretion of the Project Authority and upon their prior approval, the Contractor may use subcontractors to provide services described in this statement of work. The Contractor must provide a current resume for any proposed subcontractor. The Project Authority will review the resume and decide, at their sole discretion, whether the subcontractor is acceptable to CSC. Any subcontractor must meet the security requirements of the contract. Subcontractors are not to perform any work until the Project Authority's has granted their approval.
- b. Any subcontractors must sign reports and will be responsible for their contents. All reports prepared by a subcontractor, including students or trainees, will be countersigned by the registered psychologist named in the contract.
- c. Any of the Contractor's personnel not delivering direct services but with access to Correctional Service Canada documentation must meet the security requirements of the contract prior to handling the material.

5.4 Location of Work

- a. The Contractor must provide mental health care to offenders on-site at the Springhill Institution mentioned under section 3. Objective.
- b. The Contractor must provide mental health care to offenders on-site at the Nova Institution for Women, at the Dartmouth Parole office, at the Halifax Parole Office and at the Jamieson Community Correctional Centre (CCC) in Dartmouth, in the Atlantic Region at the request of the project authority.
- c. The Contractor must visit incarcerated offenders in interview rooms in a unit or cell range areas as requested by the Project Authority.
- d. **Telepsychology by Videoconferencing:**
The Contractor must provide Telepsychology sessions (psychology services by videoconference) to offenders at Nova Institution for Women, at the Springhill Institution, at the Dartmouth Parole office, at the Halifax Parole Office and at the Jamieson Community Correctional Centre (CCC) in the Atlantic Region if qualified and experienced,

as requested and approved by the Project Authority. The Contractor must contact the Project Authority to obtain written approval prior to any work being done via videoconference. The Project Authority will grant approval, at their sole discretion, on a site-by-site basis. The Contractor must also provide a summary of any work being done via videoconference to the Project Authority.

6. Grievance and Investigation Processes, Review Panels, CSC Boards of Investigations:

- 6.1 The Contractor must participate in various CSC internal offender grievance/investigation processes which may include a review of the Contractor's documentation on the Health Care Records. Upon request from the Project Authority, the Contractor may have to undergo interviews as a result of an offender grievance/investigation process. Participation in interviews as part of a grievance/investigation process will be billable at the hourly rate up to a maximum of one (1) billable hour per interview.
- 6.2 At the request of the Project Authority, the Contractor must participate in CSC Boards of Investigation. Participation in Boards of Investigation will be billable at the hourly rate up to a maximum of one (1) billable hour per meeting.

7. Notification Requirements:

- 7.1 The Contractor must notify the Project Authority of any issues that may call into question the Contractor's competency and any restrictions imposed by the licensing body affecting the Contractor's ability to provide psychological services.
- 7.2 The Contractor must notify the Project Authority immediately of any complaints lodged against the Contractor.

8. Security:

- 8.1 All equipment or articles, including communication devices, the Contractor wishes to bring into the Institution must be approved by the Project Authority and CSC Security in advance.

8.2 Contraband: The Contractor shall ensure that all resources (including the Contractor and any subcontractors and backups) directly or indirectly providing services under this contract are familiar with Corrections and Conditional Release Regulations, Section 3, as well as Commissioner's Directive's 060 Code of Discipline.

The Contractor, and any subcontractor and backup resources provided by the Contractor, must not enter into any personal or work relationship with an offender. The Contractor, and or any subcontractor and backup resources provided by the Contractor must not give or receive any items to/from an offender. Such items may include, but are not restricted to the following: cigarettes, toiletry items, hobby items, drugs, alcohol, letters to or from offenders, money, weapons, or items which could be used as weapons. Any person(s) found responsible for providing prohibited objects and/or contraband materials to offenders will be subject to immediate removal from the Institution or the Community Site and/or possible criminal charges. Such violations may lead to Canada terminating the Contract for default pursuant to the default provisions of the Contract.

- 8.3 As a visitor to a CSC correctional institution, the Contractor will be subject to local security requirements that can vary from moment to moment depending on offender activities. The Contractor may be faced with delay or refusal of entry to certain areas at certain times although prior arrangements for access may have been made.
- 8.4 To avoid an unnecessary trip to an institutional site because of an institutional lockdown, the Contractor is expected to call the Duty Correctional Manager at the appropriate facility, a minimum of three hours prior to arrival, to ensure that the institution is under normal

operations. Should the Contractor arrive at the institution but is unable to meet with the offender(s) for reasons beyond the Contractor's control, a "no show" fee of \$400.00 may be invoiced to CSC. To receive this fee, the Contractor must document that the call was made, the time of the call and the name of the CSC employee they spoke to.

9. Language of work:

9.1 The services are to be provided in English for Stream 7. The services are to be provided in either official language (English and French) based on the client's preferences in Stream 8 and 9.

10. Hours of Service Provision/Timely Access to Care:

10.1 It is estimated that the Contractor may have to provide up to a maximum of one (1) psychological risk assessment per month per month, as determined between the Contractor and the Project Authority at the beginning of the contract. All offender contacts must occur during normal institutional business hours unless otherwise requested by the Project Authority. The Contractor must provide the services according to the operational requirements of the Institution and operational requirements may include varied hours of work.

10.2 The Project Authority may, at their discretion, change the hours-of-service provision during the course of the contract, including any options if and when exercised by CSC.

10.3 The Project Authority will notify the Contractor of any changes to the hours-of-service provision a minimum of two (2) weeks prior to implementation of the change.

11. Meetings:

11.1 At the discretion of the Project Authority, there will be an initial meeting at the beginning of the contract to finalize the scope of services to be provided under the contract.

11.2 At the request of the Project Authority, the Contractor may be required to attend meetings in person at Atlantic Regional Headquarters. At the sole discretion of the Project Authority, other arrangements will be made (e.g., video or teleconference) for the Contractor to participate in Regional Headquarters meetings.

11.3 The Contractor must attend Institutional and Community Health Services team meetings when requested by the Project Authority.

ANNEX D - Evaluation Criteria

1.0 Technical Evaluation:

1.1 The following elements of the proposal will be evaluated and scored in accordance with the following evaluation criteria.

- Mandatory Technical Criteria

It is **imperative** that the proposal **address each of these criteria to demonstrate that the requirements are met.**

- 1.2 LISTING EXPERIENCE WITHOUT PROVIDING ANY SUBSTANTIATING DATA TO SUPPORT WHERE, WHEN AND HOW SUCH EXPERIENCE WAS OBTAINED WILL RESULT IN THE STATED EXPERIENCE NOT BEING CONSIDERED FOR EVALUATION PURPOSES.
- 1.3 All experience must be strictly work-related. Time spent during education and/or training will not be considered, unless otherwise indicated.
- 1.4 Experience must be demonstrated through a history of past projects, either completed or on-going.
- 1.5 References must be provided for each project/employment experience.
 - I. Where the stated experience was acquired within a Canadian Federal Government Department or Agency **as a Public Servant**, the reference must be a Public Servant who had a supervisory role over the proposed resource during the stated employment.
 - II. Where the stated experience was acquired within a Canadian Federal Government Department or Agency **as a consultant**, the reference must be the Public Servant who was identified as the Project Authority of the project on which the proposed resource acquired the experience.
- III. References must be presented in this format:
 - a. Name;
 - b. Organization;
 - c. Current Phone Number; and
 - d. Email address if available

1.6 Response Format

- I. In order to facilitate evaluation of proposals, it is recommended that bidders' proposals address the mandatory criteria in the order in which they appear in the Evaluation Criteria and using the numbering outlined.
- II. Bidders are also advised that the month(s) of experience listed for a project or experience whose timeframe overlaps that of another referenced project or experience will only be counted once. For example: Project 1 timeframe is July 2001 to December 2001; Project 2 timeframe is October 2001 to January 2002; the total months of experience for these two project references is seven (7) months.
- III. For any requirements that specify a particular time period (e.g., 2 years) of work experience, CSC will disregard any information about experience if the technical bid does not include the required month and year for the start date and end date of the experience claimed.
- IV. CSC will also only evaluate the duration that the resource actually worked on a project or projects (from the start date to end date), instead of the overall start and end date of a project or a combination of projects in which a resource has participated.
