***Note to Bidders**: This is the original Pricing Schedule to solicitation # 30005456. If there are any changes to it, it will not be updated. It is the responsibility of the Bidders to ensure their financial bid aligns with any changes made to the solicitation during the solicitation period.*

ATTACHMENT 1 TO PART 3 – PRICING SCHEDULE

i. The Bidder must complete this pricing schedule and include it in its financial bid. Bidders must submit a bid for any combination of stream 1, 2, 3, and/or 4. Customs duties are included and **Applicable Taxes are extra**.

ii. The volumetric data included in this pricing schedule are provided for bid evaluated price determination purposes only. They are not to be considered as a contractual guarantee. Their inclusion in this pricing schedule does not represent a commitment by Canada that Canada's future usage of the services described in the bid solicitation will be consistent with this data. Any changes to the estimated quantity will be rejected and that bid will be declared non-responsive.

iii. Under any resulting contract, Canada will not accept travel and living expenses that may need to be incurred by the Contractor for any relocation of resources required to satisfy its contractual obligations.

iv. The definitions of the contract periods are as follows:

Contract Period 1: From contract award to June 30, 2025 (inclusive)
Contract Period 2: From July 1, 2025 to June 30, 2026 (inclusive)
Option Period 1: From July 1, 2026 to June 30, 2027 (inclusive)
Option Period 2: From July 1, 2027 to June 30, 2028 (inclusive)

This means the period of any resulting contract will be from contract award to June 30, 2026 (inclusive). Exercising an option period will be effected by way of a duly signed amendment. Also, for each area, Bidders may propose different prices for (a) different buoy types as well as (b) contract/option periods. Prices do not need to be the same for all types of buoys or for each contract/option period.

v. Bidders have the choice of submitting a bid for stream 1, stream 2, stream 3, stream 4, or any combination of those streams. Any stream for which the Bidder is submitting a bid **MUST include ALL areas in that stream**. Any bid that does not provide complete pricing tables for all areas in a given stream will deemed non-responsive for that stream. The areas in New Brunswick requiring services are broken down into the four streams below:

Stream 1: Northern N.B.	Stream 2: Eastern N.B.	Stream 3: Southern N.B.	Stream 4: Tabustinac
Bay du Vin	Aldouane	Black's Harbour	Tabustinac
Caraquet	Bouctouche Harbour	Grand Manan	-
Fox Dens Gully	Cape Tormentine	L'Etete	-
Miramichi – Newcastle to Bridgetown	Kouchibouguac	Magaguadavic River	-
Miramichi – Northwest & Southwest	Grandique	Musquash River to Dipper Harbour	-
Miscou	Harshman's Brook	Quoddy River	-

Stream 1: Northern N.B.	Stream 2: Eastern N.B.	Stream 3: Southern N.B.	Stream 4: Tabustinac
Pokemouche	Richibucto – Harbour & River	St. John Harbour	-
Portage Gully	Richibucto – Rexton to Brown's Yard	St. Andrew's & Chamcook Channel	-
Shippagan	Robichaud	St. Croix River	-
Tracadie – North Gully	Shediac	-	-
Tracadie – South Gully	Shediac Bridge	-	-
-	St. Louis & Polonie River	-	-
