Description of the method(s) used to transport the Vessel						
a. Name (if applicable)																																																	
b. Size:																																																	
c. Construction material:																																																	
d. Description of the Vessel state (eg. listing, beached, partially submerged, submerged):																																																	
e. Description of mitigation measures taken to prevent contamination or pollution during the removal of the Vessel from the marine environment:																																																	
f. Description of the method(s) used to transport the Vessel																																																	

	from the recovery site to the disposal site:						
	g. Description of mitigation measure(s) taken to prevent contamination or pollution associated with transporting the Vessel from the recovery site to the disposal site:						
	h. Description of how and where the Vessel or structure was dismantled/disposed:						
	i. Customer's name: Current contact information: The identified customer(s) may be contacted by DFO to verify the details.						
	j. The Bid must indicate the timeframe of each project (in weeks).						
	Mandatory Technical Criteria					Criteria Met / Criteria Not Met	Remarks

2.	Salvage, Transportation, Deconstruction and Disposal Plan: The Bidder must provide a summary of their methodology for the current project. Their overall approach will cover these aspects, and be evaluated based on the following answers: a. Proposed method of salvaging the vessel:			
	b. Proposed method of removing Vessel from the marine environment:			
	c. Proposed method of transporting Vessels to the Approved site:			
	d. Description of how and where the Vessels will be dismantled/disposed:			
	e. List of proposed subcontractors and the proposed goods/services the Subcontractor will provide to the project.			

3.	Estimated Timeline to Complete Project The Bidder must provide a preliminary project schedule that includes: a. Estimated amount of time required to complete the proposed undertaking (completion is defined as all elements of the proposed undertaking are delivered upon)			
4.	Workers' Compensation Certification - Letter of Good Standing The Bidder must have an account in good standing with the applicable provincial or territorial Workers' Compensation Board. The Bidder must provide a certificate or letter from the applicable Workers' Compensation Board confirming the Bidder's good standing account.
