Amendment 001

This amendment is raised to answer two questions.

Question #1:

“Would DND consider accepting Item 005 and 006 packaged 12 units per skid?”

The item is a 130 lbs Brake Drum and the costs to pack and ship these units individually will cost more than the brake drums themselves.

We are simply attempting to provide best value and save taxpayer funding, therefore we want to request if this item can be delivered QTY 12 EA per skid.”

Answer # 1:

We have in the recent years accepted the following compromise:

- Drums strapped individually on mini pallets.
- 4 drums per layer.
- Layers separated by plywood.
- Max 3 layers per pallet. 2 is preferred for safe handling at depot.

Pictures attached.

Such a setup would be deemed acceptable.

Question #2:

“Our supplier has informed us that the part numbers provided for items 3 to 10 correspond to Sinotruck parts. However, the NCAGE codes provided do not match these part numbers.

Could you please confirm if we can proceed with offering Sinotruck parts for these items?”

Answer #2:

We will consider compliant replacement parts from Sinotruck or other sources. However technical documentation will be required to confirm compliancy for Fit, Form and Function.
