Question 1:

I came across the RFP for the Social Equity Consulting Services National Capital Region project, and I was curious if you're accepting proposals from entities within the United States?

Response 1:

Non-Canadian entities which are domiciled in a country with a free-trade agreement with Canada, such as an American entity, are welcome to submit a proposal for this RFP.

Question 2:

Can you provide a budget range for this work?

Response 2:

The work for this RFP will be assigned as individual statements of work under a Principal Consulting/Professional Services Agreement. Therefore, the budget will vary depending on the requirements under each issued statement of work.
