3. Former Public Servants

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public

funds. In order to comply with Treasury Board policies and directives on contracts awarded to FPSs, bidders must provide the information required below before contract award. If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the bid non-responsive.

Definitions

For the purposes of this clause, "former public servant" is any former member of a department as defined in the [Financial Administration Act](#), R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- a. an individual;
- b. an individual who has incorporated;
- c. a partnership made of former public servants; or
- d. a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity.

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the [Public Service Superannuation Act](#) (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the [Supplementary Retirement Benefits Act](#), R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the [Canadian Forces Superannuation Act](#), R.S., 1985, c. C-17, the [Defence Services Pension Continuation Act](#), 1970, c. D-3, the [Royal Canadian Mounted Police Pension Continuation Act](#), 1970, c. R-10, and the [Royal Canadian Mounted Police Superannuation Act](#), R.S., 1985, c. R-11, the [Members of Parliament Retiring Allowances Act](#), R.S. 1985, c. M-5, and that portion of pension payable to the [Canada Pension Plan Act](#), R.S., 1985, c. C-8.

Former Public Servant in Receipt of a Pension

As per the above definitions, is the Bidder a FPS in receipt of a pension? **Yes () No ()**

If so, the Bidder must provide the following information, for all FPSs in receipt of a pension, as applicable:

- a. name of former public servant;
- b. date of termination of employment or retirement from the Public Service.

By providing this information, Bidders agree that the successful Bidder's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites

as part of the published proactive disclosure reports in accordance with [Contracting Policy Notice: 2019-01](#) and the [Guidelines on the Proactive Disclosure of Contracts](#).

Work Force Adjustment Directive

Is the Bidder a FPS who received a lump sum payment pursuant to the terms of the Work Force Adjustment Directive? **Yes () No ()**

If so, the Bidder must provide the following information:

- a. name of former public servant;
- b. conditions of the lump sum payment incentive;
- c. date of termination of employment;
- d. amount of lump sum payment;
- e. rate of pay on which lump sum payment is based;
- f. period of lump sum payment including start date, end date and number of weeks;
- g. number and amount (professional fees) of other contracts subject to the restrictions of a work force adjustment program.

4. Enquiries – Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than nine (9) business days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Bidders. Enquiries not submitted in a form that can be distributed to all Bidders may not be answered by Canada.

5. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in the Province of Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

PART 3 - BID PREPARATION INSTRUCTIONS

1. Bid Preparation Instructions

CSC requests that bidders provide their bid in separate sections as follows:

Section I: Technical Bid: **one (1) electronic copy in PDF format**

Section II: Financial Bid: **one (1) electronic copy in PDF format**

Section III: Certifications: **one (1) electronic copy in PDF format**

Prices should appear in the financial bid only. No prices should be indicated in any other section of the bid.

Bidders should submit their technical bid and financial bid in two (2) separate documents.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process, the Policy on Green Procurement. To assist Canada in reaching its objectives, bidders should:

- 1) Include all environmental certification(s) relevant to your organization (e.g. ISO 14001, Leadership in Energy and Environmental Design (LEED), Carbon Disclosure Project, etc.); and
- 2) Include all environmental certification(s) or Environmental Product Declaration(s) (EPD) specific to your product/service (e.g. Forest Stewardship Council (FSC), ENERGYSTAR, etc.).

2. Section I: Technical Bid

In their technical bid, Bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the work.

3. Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Basis of Payment detailed in Annex B - Proposed Basis of Payment. The total amount of Applicable Taxes must be shown separately.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of CSC will evaluate the bids.

1.1 Technical Evaluation

1.1.1 Mandatory Technical Criteria

Proposals will be evaluated to determine if they meet all mandatory requirements outlined in **Annex D – Evaluation Criteria**. Proposals not meeting all mandatory criteria will be declared non-responsive and will be given no further consideration.

1.2 Financial Evaluation

SACC Manual Clause A0220T (2014-06-26), Evaluation of Price - Bid

Proposals containing a financial bid other than the one requested at **Article 3. Section II: Financial Bid** of **PART 3 – BID PREPARATION INSTRUCTIONS** will be declared non-compliant.

Note to Bidders: Table Totals will be calculated using the formula(s) in the relevant table in **Annex B – Proposed Basis of Payment**.

2. Basis of Selection

A bid must comply with the requirements of the bid solicitation and meet all mandatory technical evaluation criteria to be declared responsive. The responsive bid with the lowest evaluated price will be recommended for award of a contract.

3. Insurance Requirements

The Bidder must provide a letter from an insurance broker or an insurance company licensed to operate in Canada stating that the Bidder, if awarded a contract as a result of the bid solicitation, can be insured in accordance with the Insurance Requirements specified in article 11 of **PART 6 – RESULTING CONTRACT CLAUSES**.

If the information is not provided in the bid, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.

PART 5 - CERTIFICATIONS AND ADDITIONAL INFORMATION

Bidders must provide the required certifications and additional information to be awarded a contract.

The certifications provided by Bidders to Canada are subject to verification by Canada at all times. Unless specified otherwise, Canada will declare a bid non-responsive or will declare a contractor in default if any certification made by the Bidder is found to be untrue whether made knowingly or unknowingly, during the bid evaluation period or during the contract period.

The Contracting Authority will have the right to ask for additional information to verify the Bidders' certifications. Failure to comply and to cooperate with any request or requirement imposed by the Contracting Authority may render the bid non-responsive or constitute a default under the Contract.

1. Certifications Precedent to Contract Award and Additional Information

The certifications and additional information listed below should be submitted with the bid, but may be submitted afterwards. If any of these required certifications or additional information is not completed and submitted as requested, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Failure to provide the certifications or the additional information listed below within the time frame provided will render the bid non-responsive.

1.1 Integrity Provisions – Declaration of Convicted Offenses

- A) Subject to subsection B, by submitting a bid in response to this bid solicitation, the Bidder certifies that:

During the evaluation of bids, the Bidder must, within 10 working days, inform the Contracting Authority in writing of any changes affecting the list of names submitted with the bid.

1.3 Security Requirements – required documentation

In accordance with the requirements of the Contract Security Program of Public Works and Government Services Canada, the Bidder must provide a completed Contract Security Program Application for Registration (AFR) form to be given further consideration in the procurement process.

Bidders are reminded to obtain the required security clearance and, as applicable, security capabilities promptly. As indicated above, Bidders who do not provide all of the required information at bid closing will be given the opportunity to complete any missing information from the AFR form within a period set by the Contracting Authority. If that information is not provided within the timeframe established by the Contracting Authority (including any extension granted by the Contracting Authority in its discretion), or if Canada requires further information from the Bidder in connection with assessing the requests for security clearance (i.e., information not required by the AFR form), the Bidder will be required to submit that information within the time period established by the Contracting Authority, which will not be less than 48 hours. If, at any time, the Bidder fails to provide the required information within the timeframe established by the Contracting Authority, its bid will be declared noncompliant.

1.4 Federal Contractors Program for Employment Equity - Bid Certification

By submitting a bid, the Bidder certifies that the Bidder, and any of the Bidder's members if the Bidder is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "FCP Limited Eligibility to Bid" list available at the bottom of the page of the Employment and Social Development Canada (ESDC) – Labour's website.

Canada will have the right to declare a bid non-responsive if the Bidder, or any member of the Bidder if the Bidder is a Joint Venture, appears on the "FCP Limited Eligibility to Bid" list at the time of contract award.

1.5 Status and Availability of Resources

SACC Manual clause A3005T (2010-08-16) Status and Availability of Resources

PART 6 - RESULTING CONTRACT CLAUSES

The following clauses and conditions apply to and form part of any contract resulting from the bid solicitation.

1. Security Requirement

3. Standard Clauses and Conditions

As this Contract is issued by Correctional Service Canada (CSC), any reference to Public Works and Government Services Canada (PWGSC) or its Minister contained in full text or by reference in any term, condition or clause of this document must be interpreted as a reference to CSC or its Minister.

The replacement must meet the criteria used in the selection of the Contractor and be acceptable to Canada. The Contractor must, as soon as possible, give notice to the Contracting Authority of the reason for replacing the individual and provide:
 - a. The name, qualifications and experience of the proposed replacement; and

Further, the policy must apply to each Insured in the same manner and to the same extent as if a separate policy had been issued to each.

All expenses incurred by Canada to co-defend such actions will be at Canada's expense. If Canada decides to co-defend any action brought against it, and Canada does not agree to a proposed settlement agreed to by the Contractor's insurer and the plaintiff(s) that would result in the settlement or dismissal of the action against Canada, then Canada will be responsible to the Contractor's insurer for any difference between the proposed settlement amount and the amount finally awarded or paid to the plaintiffs (inclusive of costs and interest) on behalf of Canada.

12. Liability

ANNEX A – Statement of Work

1. Introduction

The Correctional Service Canada has a requirement to contract with a qualified firm to provide qualified inspection and appropriate routine calibration services for the medical devices and equipment located at Correctional Service of Canada (CSC) federal correctional facilities in the Ontario Region. The work will involve the following:

1.1 Background

As part of its mandate, the Correctional Service of Canada (CSC) has built and maintains a large number of secure sites with diverse security profiles. In order to provide the requisite health services to the inmate population within these sites, each institution and regional pharmacy has a wide variety of medical systems and components that, in all aspects, constitutes a critical infrastructure that must be maintained.

The Health Services Sector of CSC has developed a Medical Device Maintenance Program (MDMP), which outlines the processes for the effective inspection, routine calibration, upgrading and replacement of medical devices and equipment used in CSC Health Services clinics, hospitals, and Regional Pharmacies.

The MDMP ensures that medical devices and equipment are safe and functional. It also provides guidance to identify and address potential problems with medical devices and equipment that may result in injury to staff or clients, and requires follow-up on medical equipment or devices involved in an adverse event.

1.2 Objectives

To perform an annual inspection of all relevant medical devices and equipment that fall within the inspection profile of the MDMP.

1.3 Tasks

The Contractor must provide qualified technician(s) to perform the inspection of the medical devices and equipment (referred to as Equipment in this statement of work) CSC has identified in its federal correctional facilities, maintain suggested calibration timelines as appropriate and recommended, and to provide guidance on timely replacement or updating of items.

The Contractor must provide technical support services to ensure the quality and effectiveness of CSC medical devices, medical equipment and associated components.

The medical devices within an Institutions Health Services can be broken down into two distinct categories:

1. Equipment that should be repaired when it ceases to function; and
2. Equipment that should be replaced when it ceases to function

Equipment at End of Life

In all of the above cases, the useful service life of Equipment is established by the recommendations of the manufacturer and captured by Health Services in its Lifecycle Management Program. The Technician must assess the lifecycle status of each piece of Equipment based on the manufacturer's recommended service life as well as through the performance of a physical examination. The technician must note if the Equipment is at or near the end of its useful service life, in their report.

1.4 Deliverables

The Contractor must provide the following services with regards to medical devices within the Ontario Region (List of Equipment, by site, is included in Annex E)

- A) The Contractor must perform on-site inspections on an annual basis. The Project Authority and Contractor will determine the time and date of inspections after contract award. Each inspection must include industry standard verifications for each piece of equipment. The Contractor must provide, inspect, manage and control all required test equipment. The Project Authority will provide a complete list of equipment that the contractor must test and inspect during the site visit, to the Contractor, at least 10 working days prior to each site visit.

The Contractor must test equipment undergoing inspection to ensure it meets quality control standards as per the manufacturer's guidelines.

List of equipment:

From time to time, CSC may add or remove equipment from the lists of equipment when required during the period of the contract. The respective site authority (Managers Health Care and Rehabilitation Program and Services at each site, Chief of Health Services) or the Project Authority at the Regional office may add or remove equipment from the lists.

Any changes greater than 10% in the total number of items to be inspected as part of the contract or any changes greater than 30% in the number of items at any one specific site will require a review of the inspection fees to take into consideration the additional or reduced workload. Should this situation occur, the Project Authority will request an updated quote from the contractor for work to be done.

- B) The Contractor must provide annual performance testing, inspection and calibration of electro medical devices in order to comply with standards set forth by the Province of Ontario.
- C) During inspection, the Contractor must assist the CSC site authority in identifying requirements with respect to repairing existing equipment or purchasing new equipment.
- D) During inspection, the Contractor must repair all issues or problems with equipment being inspected which do not require any parts.
- E) The Contractor must submit an inspection report in writing to the Contract Authority within 30 days of the on site inspection. The report must detail all pieces of equipment inspected, calibrations performed and results of same. The Contractor must also include any concerns identified, or repairs recommended, or completed repairs, or any combination of the three. For pieces of equipment requiring replacement parts to complete repairs, the contractor's recommendations must identify the replacement parts and their estimated cost.
- F) Correctional Service Canada, Ontario Region Health Services will be responsible for addressing all equipment identified as needing replacement parts to complete their repair.
- G) The Project Authority will approve, at their own discretion, all proposed test equipment before it is deployed on site. The Contractor must note that some forms of equipment qualify as contraband within the precinct of a correctional institution and are therefore not permitted on site.

1.5 Technician Certifications

Many manufacturers of medical equipment provide certification programs for the inspection and service of their product lines. The Contractor must provide Technician(s) to complete the work that have the necessary qualifications, training and certification to inspect all equipment.

The Contractor may provide more than one Technician to an institution to inspect the equipment to ensure that a Technician with the proper certification and training applicable to each piece of equipment inspects and maintains it. At their own discretion, the Project Authority may ask technicians to provide proof they have the proper certification and training before they perform any work on CSC equipment.

1.6 Location of Work

The CSC Institution or Regional Escorters will provide individual assigned to escort the Technician throughout the site. The Contractor must ensure that the technician abides by the instructions regarding the escort provided by the Institutional Head or their delegate to the technician.

Due to the nature of the environment in which the Contractor must provide services, the scheduled dates of inspection and repairs are subject to change due to urgent institutional situations such as Institutional lockdowns, closures due to inclement weather, security requirements, public health measures, or other emergency situations. The Contractor must reschedule the services at no cost to CSC. In these cases, the Project Authority will advise the Contractor of the need to reschedule an inspection with as much notice as possible. Annex D - Evaluation Criteria

1.0 Technical Evaluation:

1.1 The following elements of the proposal will be evaluated and scored in accordance with the following evaluation criteria.

- Mandatory Technical Criteria

It is **imperative** that the proposal **address each of these criteria** to demonstrate that the requirements are met.

1.2 LISTING EXPERIENCE WITHOUT PROVIDING ANY SUBSTANTIATING DATA TO SUPPORT WHERE, WHEN AND HOW SUCH EXPERIENCE WAS OBTAINED WILL RESULT IN THE STATED EXPERIENCE NOT BEING CONSIDERED FOR EVALUATION PURPOSES.

1.3 All experience must be strictly work-related. Time spent during education and/or training will not be considered, unless otherwise indicated.

1.4 Experience must be demonstrated through a history of past projects, either completed or on-going.

1.5 References must be provided for each project/employment experience.

I. Where the stated experience was acquired within a Canadian Federal Government Department or Agency **as a Public Servant**, the reference must be a Public Servant who had a supervisory role over the proposed resource during the stated employment.

II. Where the stated experience was acquired within a Canadian Federal Government Department or Agency **as a consultant**, the reference must be the Public Servant who was identified as the Project Authority of the project on which the proposed resource acquired the experience.

III. References must be presented in this format:

- a. Name;
- b. Organization;
- c. Current Phone Number; and
- d. Email address if available

1.6 Response Format

I. In order to facilitate evaluation of proposals, it is recommended that bidders' proposals address the mandatory criteria in the order in which they appear in the Evaluation Criteria and using the numbering outlined.

II. Bidders are also advised that the month(s) of experience listed for a project or experience whose timeframe overlaps that of another referenced project or experience will only be counted once. For example: Project 1 timeframe is July 2001 to December 2001; Project 2 timeframe is October 2001 to January 2002; the total months of experience for these two project references is seven (7) months.

III. For any requirements that specify a particular time period (e.g., 2 years) of work experience, CSC will disregard any information about experience if the technical bid does not include the required month and year for the start date and end date of the experience claimed.

IV. CSC will also only evaluate the duration that the resource actually worked on a project or projects (from the start date to end date), instead of the overall start and end date of a project or a combination of projects in which a resource has participated.
