PART 1 – GENERAL SUMMARY

1. Summary

This ProServices Request for Supply Arrangement (RFSA) bid solicitation is to satisfy the Government of Canada's requirement for the provision of professional services below the Canada-Korea Free Trade Agreement (CKFTA) threshold. ProServices is a mandatory method of supply offering federal departments across Canada the flexibility to either direct a contract to a pre-qualified supplier for requirements below \$25,000, or to compete requirements valued up to the CKFTA threshold to pre-qualified suppliers.

Changes affecting the ProServices Method of Supply are being implemented through this bid solicitation. Bidders are reminded of the importance of reading this document in its entirety, as well as all documents incorporated by reference. By submitting a bid, bidders are acknowledging that they agree to the process as well as the terms and conditions as described in this bid solicitation.

Each bid submitted in response to this bid solicitation may result in a Supply Arrangement (SA). Supply Arrangements may be issued under any of the following SA numbers:

- E60ZT-180024
- E60ZT-180025
- E60ZT-180026
- E60ZT-180027
- E60ZT-180028
- E60ZT-180029

Bidders capable of meeting the requirements of this bid solicitation are invited to submit a bid.

Note: The CKFTA threshold changes every two years and can be found on the Treasury Board of Canada Secretariat's website.

The period of the Supply Arrangement is from award date until such time as Canada chooses to re-compete the Supply Arrangement or no longer deems the Supply Arrangements necessary.

2. Aboriginal Set Aside

The resulting Supply Arrangements from this solicitation document can be used by Federal Department Users for requirements containing an Aboriginal set aside under the federal government's Procurement Strategy for Aboriginal Business (PSAB).

Please refer to Attachment A for a list of key terms.

PART 2 - SUPPLIER INSTRUCTIONS

1. Submission of Bids

Bidders must obtain the Bid Solicitation document posted on the Government Electronic Tendering System (GETS), also known as the Buy and Sell Tenders site, and read it in its entirety. ProServices will only accept electronic submissions through the Data Collection component (DCC) of the Centralized Professional Services System (CPSS) ePortal.

Bidders who have an existing ProServices Supply Arrangement and want to add additional information to their existing supply arrangement must identify these additions through a bid submission.

2. Requirements prior to bidding

Bidders must have:

- a) a Procurement Business Number (PBN) which is registered with the Supplier Registration Information (SRI) system, and
- b) a Centralized Professional Services System (CPSS) supplier account in order to submit their electronic bid through the DCC.

2.1. Obtaining a PBN through the SRI system

- a) Bidders must have a registered Procurement Business Number (PBN) with the Supplier Registration Information (SRI) system. To obtain a PBN, bidders can access the following website and register online:
<https://srisupplier.contractscanada.gc.ca/index-eng.cfm?af=ZnVzZWfidGlvbj1yZWdpc3Rlci5pbmRybyZpZD03&lang=eng>

The SRI contact information is:

Tel.: 1-800-811-1148

Email: BPMEclient.OSMEclient@tpsgc-pwgsc.gc.ca

- b) In the case of a new bidder that is submitting as a Joint Venture (JV), a unique PBN representing the joint venture legal entity must be created in SRI and used when submitting a bid through the DCC. The business number (i.e. the first nine digits of the PBN) of the lead company is used to create a new PBN (i.e. account) for the JV.

All members of the JV must have their own PBN, and the Legal Name field of the JV must show the names of all companies participating in the JV. The registration of a JV account must be done by contacting an SRI agent.

2.2. Enrolling in the Centralized Professional Services System (CPSS) ePortal

Instructions on how to enroll into the CPSS ePortal can be found at the following link: <http://www.tpsgc-pwgsc.gc.ca/app-acq/spc-cps/iffpe-seeps-eng.html>

When enrolling into the CPSS ePortal, bidders are to ensure the correct spelling of their Legal Name and the accuracy of their PBN. The bidder's Legal Name, Mailing Address and PBN identified in CPSS should match what is in their SRI account.

Enrolment into the CPSS ePortal is not a bid submission, nor does it pre-qualify a bidder under a method of supply. Enrolment provides bidders/existing suppliers access to their CPSS Supplier Module account,

where they can access their company's profile as well as submit a bid through the Data Collection Component (DCC).

Suppliers are responsible for safeguarding their credentials (i.e. userid and password) which are sent via email to their main supplier contact in order to access their CPSS Supplier Module account.

ProServices will not delay or cancel any solicitation process due to a supplier's inability to access, modify or validate such credentials.

Bidders can contact the CPSS ePortal team directly for any enrolment questions at TPSGC.SSPC-CPSS.PWGSC@tpsgc-pwgsc.gc.ca.

3. Standard Instructions, Clauses and Conditions for this solicitation

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the Standard Acquisition Clauses and Conditions manual (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by all parts of this solicitation, as well as all parts of the resulting Supply Arrangement.

The 2008 (2017-04-27) Standard Instructions – Request for Supply Arrangements – Goods or Services, are incorporated by reference into and form part of the RFSA solicitation.

Subsection 5.4 of 2008, Standard Instructions – Request for Supply Arrangements – Goods or Services, is amended as follows:

Delete: sixty (60) days
Insert: two hundred and fifty (250) days

4. Bid Validity Period

Bids will remain open for acceptance for a period of not less than two hundred and fifty (250) days from the closing date of the bid solicitation, unless specified otherwise. ProServices reserves the right to seek an extension of the bid validity period from all responsive bidders in writing, within a minimum of three (3) days before the end of the bid validity period. If the extension is not accepted by all responsive bidders, ProServices will at its sole discretion, either continue with the evaluation of the bids of those who have accepted the extension or cancel the bid solicitation.

5. Quarterly Refreshes

The bid solicitation has established periods (also known as "quarters"), which align with the Government of Canada's fiscal year quarters, as demonstrated in the below table.

FY Quarter:	Opening Date (first business day of the month):	Closing Date (last business day of the month):	Estimated Award Date (Subject to Change)

Each quarter is assigned a period number which is reflected on the Solicitation Dashboard of the CPSS ePortal which will increase as quarters pass. Each period (i.e. Quarter) will automatically close in the Data Collection Component of the CPSS ePortal as per the date and time indicated on the Solicitation Dashboard. Data cannot be submitted against a "closed" period.

Only those bidders who have submitted data by the closing date and time of a period will be evaluated.

Please note that the DCC will not allow a bidder to submit another bid to a subsequent period until the results of their previously submitted bid is published.

6. Number of Supply Arrangements per legal entity

One legal entity may participate in the submission of:

- (i) one bid from the legal entity alone, or
- (ii) one bid from the legal entity and one bid submitted in a joint venture, or
- (iii) two bids submitted in joint venture.

No more than two bids generated from the same legal entity is permitted in response to this bid solicitation. If a legal entity participates in more than two bids, Canada will choose at its discretion which two bids to consider.

7. Grandfathering

For Grandfathering purposes, ProServices bidders must use the same PBN under which they have been pre-qualified in TBIPS and/or TSPS (Task based only) when submitting a ProServices bid submission. Existing suppliers who are in a joint venture, must ensure that all members of that joint venture remain the same (including each PBN of the individual joint venture members).

7.1 ProServices Existing Suppliers

7.1.1 Suppliers that do not have a TBIPS and/or TSPS (task based) SO and/or SA

ProServices Existing Suppliers (who do not have a Standing Offer or Supply Arrangement with TBIPS and/or TSPS (task based)) have the ability to bring forward their ProServices information into this ProServices bid submission for possible grandfathering.

7.1.2 Suppliers that have a TBIPS and/or TSPS (task based) SO and/or SA

ProServices Existing Suppliers (who have a Standing Offer and/or Supply Arrangement with TBIPS and/or TSPS (task based)) have the ability to bring forward their ProServices information into this ProServices bid submission for possible grandfathering, as well as their awarded streams and categories from, TBIPS and/or TSPS (task based) SO and/or SA.

7.2 New ProServices bidders (i.e. bidding on ProServices for the first time)

New ProServices bidders who have an active TBIPS, and/or TSPS (task based) standing offer or supply

arrangement, have the ability to bring forward their awarded Streams and Categories from their TBIPS, and/or TSPS (task based) SO and/or SA into this ProServices bid submission for possible grandfathering.

It remains the bidders' responsibility to ensure that all requested categories are properly indicated in their electronic submission.

8. Enquiries regarding this bid solicitation

All enquiries must be submitted in writing, using the TPSGC.Proservices.PWGSC@tpsgc-pwgsc.gc.ca email address, no later than fifteen (15) calendar days before the Request for Supply Arrangement closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item in the Request for Supply Arrangement (RFSa) document to which the enquiry relates. Care should be taken by suppliers to explain each question in sufficient detail in order to enable Canada to provide an accurate answer.

Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that suppliers do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

9. Former Public Servant - Notification

Professional service contracts awarded to former public servants in receipt of a pension or a lump sum payment must bear the closest public scrutiny and reflect fairness in the spending of public funds. Therefore, this bid solicitation will require the bidder to provide information that, were they to be a successful bidder, their status with respect to being a former public servant in receipt of a pension or a lump sum payment, will be required to be reported on departmental websites as part of the published proactive disclosure reports generated in accordance with Treasury Board policies and directives on contracts with former public servants, [Contracting Policy Notice 2012-2](https://www.canada.ca/en/treasury-board-secretariat/services/policy-notice/2012-2.html) (<https://www.canada.ca/en/treasury-board-secretariat/services/policy-notice/2012-2.html>) and the [Guidelines on the Proactive Disclosure of Contracts](http://www.tbs-sct.gc.ca/pol/doc-eng.aspx?id=14676) (<http://www.tbs-sct.gc.ca/pol/doc-eng.aspx?id=14676>).

Also, this bid solicitation requires that a bidder submit information through the DCC regarding the bidder's status with respect to being a former public servant in receipt of a pension or a lump sum payment. If, as a result of this bid solicitation, a Supply Arrangement is issued, the name of the Supplier who is in receipt of a pension or a lump sum payment will be posted on the ProServices web site.

10. Federal Contractors Program for Employment Equity – Notification

The Federal Contractors Program (FCP) for employment equity requires that some contractors make a formal commitment to Employment and Social Development Canada (ESDC) - Labour to implement employment equity. In the event that this Supply Arrangement would lead to a contract subject to the Federal Contractors Program (FCP) for employment equity, the bid solicitation and resulting contract templates would include such specific requirements. Further information on the Federal Contractors Program (FCP) for employment equity can be found on [Employment and Social Development Canada](https://www.canada.ca/en/employment-social-development.html) (ESDC) - Labour's website (<https://www.canada.ca/en/employment-social-development.html>).

11. Applicable Laws

The Supply Arrangement (SA) and any contract awarded under the SA must be interpreted and governed, and

the relations between the parties determined, by the laws in force in Ontario. However, suppliers may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of the arrangement, by selecting an alternate Canadian province or territory in the DCC under the "Company Information" section. If no change is made, this acknowledges that the applicable laws specified are acceptable to the supplier.

PART 3 – BID PREPARATION INSTRUCTIONS

1. Technical Bid

1.1 Electronic Bid Submission

Bidders must submit their bid electronically through the Data Collection Component (DCC) of the CPSS ePortal by the closing date and time of this solicitation. The DCC allows bidders to save and re-submit their bid multiple times.

When a bid is submitted, the main supplier contact will receive a confirmation email that will confirm the receipt of the electronic submission. The last bid submitted by the bidder prior to the solicitation closing date and time and received by PWGSC will be the one that will be evaluated.

It is the bidder's responsibility to click the <Submit Response> button in order to submit their bid to PWGSC by the end date and time of the bid solicitation. Only the Main Supply Contact can submit their electronic bid. Simply saving the bid does not constitute a submission.

ProServices will request by return email, all supporting documentation that is required to complete the bid evaluation sometime during the evaluation process.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process; [Policy on Green Procurement](https://www.tpsgc-pwgsc.gc.ca/app-acq/ae-gp/paecoif-pgptts-eng.html), <https://www.tpsgc-pwgsc.gc.ca/app-acq/ae-gp/paecoif-pgptts-eng.html>. To assist Canada in reaching its objectives, bidders must submit their electronic bid submission online through the DCC of the CPSS ePortal.

1.2 Steps to submitting an electronic submission through DCC

Instructions regarding how to submit an electronic bid for this ProServices solicitation can be found at Attachment B of this document.

Submitting an electronic bid for this ProServices solicitation does not require the submission of individual resources or resumes. If issued a Supply Arrangement, prequalified suppliers may be requested by Federal Department users to provide information on personnel (as well as resumes) during the Request for Proposal process.

2. Financial Bid

There is no financial bid required with this solicitation.

3. Certifications

Bidders must submit the required Certifications via email upon request by ProServices, as detailed in Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

All bidders must submit their bid through the Data Collection Component (DCC) of the Centralized Professional Services System (CPSS) ePortal by the end date and time as indicated in this bid solicitation.

All bidders must meet the mandatory requirements set out in Item 3 Technical Evaluation – Mandatory Criteria below.

By submitting a bid, bidders are indicating that they consider themselves to be fully compliant in accordance with the mandatory requirements of this bid solicitation, and agree to the Supply Arrangement terms and conditions identified in Part 6.

Although the evaluation of bids will be conducted in steps, the fact that Canada has proceeded to a later step does not mean that Canada has conclusively determined that the bidder has been successful in all the previous steps. Canada may conduct steps of the evaluation in parallel.

An evaluation team composed of representatives of Canada will evaluate the bids. Canada may hire any independent consultant, or use any Government resources, to evaluate any bid. Not all members of the evaluation team will necessarily participate in all aspects of the evaluation.

Each bid will be reviewed. To be considered compliant, a bid must meet all mandatory requirements of this bid solicitation.

A bid which does not meet every mandatory requirement of this bid solicitation will be considered non-compliant and will not be awarded a Supply Arrangement.

2. Requesting Information/Clarification from Bidders

During the course of the evaluation, bidders will be requested to provide information as deemed necessary by ProServices in order to fully evaluate the bidder's electronic submission. Such items may include but are not limited to:

- Proof of years in business
- Bidder's Statement
- Grandfather Certification
- Proof of Security
- Aboriginal Certification
- Integrity Provisions
- Invoices and/or contracts

ProServices reserves the right to request additional information in order to validate a bidder's submission. If ProServices seeks clarification or verification from the bidder about its bid, the bidder will have two working days or a longer period if specified in writing by ProServices to provide the necessary information to ProServices. Failure to meet this deadline may result in the bid or a part thereof being declared non-compliant.

An extension can be requested from ProServices if the bidder explains why one is needed. However, discretion remains with ProServices to decide to grant the extension or not.

3. Technical Evaluation – Mandatory Criteria

The technical evaluation criteria to prequalify for a Supply Arrangement are below. Please consult Attachment B for instructions on how to address these mandatory criteria in the DCC of the CPSS ePortal.

M.1 Minimum Years in Business:

The bidder must have carried on business as the same legal entity for a minimum of one (1) year by the closing date and time of this solicitation, or by the closing date and time of the quarterly refresh that the bidder is submitting against. If the bidder is a joint venture, one member of the joint venture must meet the one year in business requirement, as stipulated above.

To demonstrate this requirement, a bidder must:

- a) Complete the 'Minimum Years in Business' section of the DCC of the CPSS ePortal
- b) At ProServices' request, provide documented proof of its years in business (such as a certificate of incorporation, business registration or tax returns).

M.2 Identification of Streams and Categories

The bidder must identify the ProServices Streams and Categories that they wish to include as part of their electronic submission through the DCC of the CPSS ePortal, based on the type of work that their company offers. A full description of the streams/categories can be found on the ProServices web site, at: <http://www.tpsgc-pwgscc.gc.ca/app-acq/sp-ps/vltcat-strmcat-eng.html>.

To demonstrate the requirement in the DCC of the CPSS ePortal, a bidder must:

1. Identify the Streams as applicable to their submission
 - a) Identify any new Streams as 'Newly Offered'.
 - b) Identify any Streams that are being grandfathered as 'Currently Offered'. Note: If an existing bidder is already compliant in certain Streams, the DCC will automatically indicate those streams as 'Currently Offered'.
 - c) Identify any Streams that the bidder is not interested in including as part of their bid submission as 'Not Offered'.
2. Identify the Categories as applicable to the submission:
 - a) Identify any new categories as 'Newly Substantiated'.
 - b) Identify any categories that the bidder wants ProServices to consider as being grandfathered, as 'Currently Substantiated'. Note: If an existing bidder is already compliant in certain categories, the DCC will automatically indicate those categories as 'Currently Substantiated'.
 - c) Identify any remaining categories that the bidder is not interested in including as part of their bid submission as 'Not Offered'.

M.3 Reference Substantiation for each 'Newly Substantiated' Category

For each 'Newly Substantiated' category, the bidder must provide reference information, (i.e. an individual who ProServices can contact) through the DCC of the CPSS ePortal that can substantiate (validate) that the bidder has done work (i.e. performed the services) that are similar to those indicated in the ProServices description of each of the categories identified under M.2. The same is to apply to joint venture bidders, where at least one member can provide the reference substantiation required.

The following is information on this mandatory:

1. The reference who is identified for each category must have received an invoice from the bidder

for the services rendered.

2. The services must have been performed by the bidder within the last five (5) years prior to the closing date of the bid solicitation.
3. The reference information cannot be individuals:
 - a) who have been employed by the bidder
 - b) who have acted as a consultant for the bidder
 - c) from the bidder's Board of Directors.
4. For each 'Newly Substantiated' category that is indicated in the bidder's bid, information on one (1) contract that closely matches the category description provided on the ProServices website (<http://www.tpsgc-pwgsc.gc.ca/app-acq/sp-ps/vltcat-strmcat-eng.html>) is to be provided through the DCC of the CPSS ePortal. ProServices will conduct the substantiation of references by email verifications only.

To demonstrate the requirement for 'Newly Substantiated' categories, a bidder must input all mandatory information (as per the data fields indicated below) for each category in the DCC of the CPSS ePortal:

- i. Client (Government Department/Company Name) [Mandatory]
- ii. Contact Name [Mandatory]
- iii. Position
- iv. Telephone [Mandatory]
- v. E-Mail [Mandatory]
- vi. E-Mail 2
- vii. Contract/Project Reference # [Mandatory]

The bidder has the opportunity to provide two email addresses which ProServices will use to contact the reference in order to validate that the bidder has performed the services for that category. The second email address can be an alternate email address for the first email address provided (i.e. a work email address versus a home email address), OR an E-Mail address for a completely different individual representing the same contract/project reference #. If the bidder does not have a second email address to provide, the bidder is encouraged to use the email address used in the first email field for the E-Mail 2 field.

5. If the bidder is a joint venture, the reference substantiation must be provided by at least one member of the joint venture.
6. The same reference information can be used by bidders to substantiate multiple categories.
7. Bidders are strongly encouraged to inform their references that ProServices will be contacting them via email (as per the process detailed in item 11 below) to validate the information during the bid evaluation process.
8. A single category being found 'compliant' will result in the award of a supply arrangement provided all other mandatory criteria has been met.
9. Work completed as a sub-contractor can be used to substantiate a category. In this case, the client who is identified for each category must have received an invoice from the bidder for the services rendered.

10. ProServices reserves the right to request a copy of the invoice and/or copy of the contract that was applicable to the contract/project reference # identified in the reference information for specific categories identified in the DCC of the CPSS ePortal.
11. For the evaluation of each category an email, similar to the example below, will be sent to the reference(s) indicated in the bid. The bidder will also be copied on the email that is sent to the reference(s) with the intent being that the bidder can follow up with their reference(s) to ensure a response is provided to ProServices. The Bidder cannot respond on behalf of the reference.

Hello,

*Public Works and Government Services Canada (PWGSC) has received a bid from **[SUPPLIER LEGAL NAME]**, (operating as **[SUPPLIER OPERATION NAME]**) in an effort to pre-qualify in the ProServices method of supply. A response is requested by **[PROVIDE RESPONSE WITHIN X DAYS FROM CURRENT DATE]**.*

*Your name has been provided by **[SUPPLIER LEGAL NAME]**, (operating as **[SUPPLIER OPERATION NAME]**) as the main contact who could answer the following:*

- 1. Were the services identified in the below table provided to you by the company within the last 5 years immediately prior to **Month Day, Year**? (Yes/No)?*
- 2. Did you receive an invoice for the services identified in the below table? (Yes/No)*
- 3. Were the services provided by the bidder for the category (ies) indicated in the below table similar to the ProServices category(ies) descriptions, as found at the following hyperlink: <http://www.tpsqc-pwgsc.gc.ca/app-acq/sp-ps/vltcat-strmcat-eng.html?> A Yes, No, or Unable response is required to be input into the below table for each of the identified category(ies).*

A response of 'unable' should be used in the table below if you:

- 1) are or have been employed by the bidder,*
- 2) acted as a consultant to the bidder, or*
- 3) are on the bidders list of Board of Directors.*

[CATEGORY REFERENCE TABLE INSERTED HERE]

Note: The text below the column titled "Contract/Reference number" appears exactly as the bidder input into their bid and therefore may not appear translated.

Your response is necessary in order for PWGSC to determine whether or not these categories are compliant, and may be shared with the bidder during a debrief, if one is requested. Not responding to this email may render these categories as non-compliant.

Should you have any questions regarding this reference substantiation process, please do not hesitate to contact us.

Thank you,

12. The response received from a reference will be used to determine the compliancy of each category, as follows:

- a. If the reference indicates a "Yes" relating to the category requested, the bidders' resulting supply arrangement will include that category if all other mandatory requirements are met.
- b. If the reference indicates a "No" or an "Unable" relating to a category requested, the reference verification will end and the category will be deemed non-compliant.
- c. If the bidder provided only the 1st reference email (i.e. no 2nd reference email was provided in the bid), and no response is received from the 1st reference by the due date stated in the original email, the reference verification process will end and the category will be deemed non-compliant.
- d. In the event that no response is received from the 1st reference by the due date stated in the original email, an email will be sent to the 2nd reference requesting a response (if a 2nd reference email was provided by the bidder). If no response is received from the second reference by the time and date indicated in the email, the reference verification process will end and the category will be deemed non-compliant.
- e. If information is received via return email that the email sent to the 1st or 2nd reference was improper or the email address is no longer valid and results in an undeliverable email being received by ProServices, the bidder will be contacted to provide an alternative email address for the same reference for that specific category.
- f. If information is received via return email that the 1st reference is absent for a period of time that is beyond the response date in the reference email, the evaluation team will send the email to the 2nd reference after the due date stated in the original email. If information is received via return email that the email sent to the 2nd reference is absent for a period of time beyond the response date stated in the reference email, the reference check process will end and the category will be deemed non-compliant.
- g. No individual identified in an 'out of office' reply will be used to substantiate a category for the bidder.
- h. For all categories deemed non-compliant, those categories will not be included in the resulting supply arrangement.
- i. There will be no follow up emails sent to the references requesting a response. The bidder can re-apply at the next quarterly refresh.

4. Financial Evaluation

No financial evaluation of bids is required to be issued a Supply Arrangement.

5. Security Requirement

Before issuance of a supply arrangement, the following conditions must be met:

- 1) The bidder must hold a valid Designated Organization Screening (DOS), issued by the Canadian Industrial Security Directorate (CISD), Public Works and Government Services Canada (PWGSC).
- 2) Each member of a Joint venture bidder must have a Designated Organization Screening (DOS), issued by the Canadian Industrial Security Directorate (CISD), Public Works and Government Services Canada

N° de l'arrangement - Supply Arrangement No. E60ZT-180024/C	N° de la modif. - Amd. No. 004	Id de l'acheteur - Buyer ID 002ZT
N° de réf. du client - Client Ref. No. E60ZT-180024/C	N° du dossier - File No. 002ZT. E60ZT-180024/C	FMS No/ N° VME - CCC No/N° CCC

(PWGSC).

A bidder who is awaiting completion of the security clearance process is not “fully compliant” and cannot be issued a Supply Arrangement. In this case, the bidder will have a “bid validity” status in the CPSS ePortal once the results of the RFSA process is released. Provided the bidder agrees to extend the validity period of their bid, the supplier’s bid on bid validity status will remain valid up to the time of the next re-competition process for ProServices. ProServices will consider issuing a Supply Arrangement to this Supplier, once the required clearance is received and provided actions relating to this supplier have not occurred.

If the security clearance has not been obtained by the time of the next re-competition process for ProServices, the bidder on bid validity status will return to the designation of a “New Bidder” for the submission of a bid in response to a re-competition solicitation.

In the case of Joint Ventures (JV), the level of corporate security attainable through CISC of PWGSC for the Joint Venture entity is the level in common that is held by all members of the JV. For example: a Joint Venture with five (5) members is comprised of four members holding a valid Facility Security Clearance (FSC) at the Secret level and one member holding a valid Designated Organization Screening (DOS). The highest corporate security level for which the Joint Venture would be considered under this SA framework would be DOS, until such time as the member holding a valid DOS clearance has requested sponsorship via the Supply Arrangement Authority and obtained a valid FSC at the secret level issued by CISC.

Bidders may request that ProServices consider security sponsorship for their company for the initial DOS clearance or to upgrade the bidder to the next security level. Such sponsorship is only available for one level of upgrade at a time. This request may be made at any time before or after bid closing by sending the request to the following email address: TPSGC.ProServices.PWGSC@tpsgc-pwgsc.gc.ca. If sponsorship is anticipated, the bidder is encouraged to contact ProServices as soon as possible so that the process can be started. There is no need for the bidder to wait for the solicitation to close before advising ProServices of the need to be sponsored.

ProServices will not consider security sponsorship of foreign bidders. Foreign bidders must hold a valid security clearance from their host country before they can request a Canadian equivalency. A foreign bidder that does not have a security clearance in its own country will first need to obtain a security clearance from their respective government and provide proof to the SA Authority.

Contracts issued under a Supply Arrangement resulting from this solicitation are subject to the requirements in the Security Requirement Check Lists (SRCL's) identified in each individual Request for Proposal (RFP). Samples of possible SRCLs are accessible through the CPSS web site at: <http://www.tpsgc-pwgsc.gc.ca/app-acq/spc-cps/31-eng.html>, but other SRCLs may be used. Each Request for Proposal issued by Federal Department Users will identify the SRCL that will apply to their resulting contract.

6. Basis of Selection

Each compliant bid will be recommended for the issuance of a Supply Arrangement as per the terms stated in Part 6 - Supply Arrangement, Bid Solicitation and Resulting Contract Clauses.

Existing Suppliers under TBIPS and/or TSPS (task based), that are found to be overall compliant, will have the ability to bring forward all of their awarded categories from the above mentioned methods of supply to be included in the resulting ProServices supply arrangement. This process of bringing forward awarded categories is referred to as ‘Grandfathering’.

Where an Aboriginal bidder qualifies for both an Aboriginal and non-Aboriginal Supply Arrangement, only one Supply Arrangement will be awarded which will serve both Aboriginal and non-Aboriginal procurements.

The results of the evaluations will determine the status of the bids as follows:

Compliant Supplier:

The bidder has met all of the mandatory requirements of this solicitation and is awarded a Supply Arrangement.

Non-Compliant Supplier:

The bidder has not met all of the mandatory requirements of this solicitation and is not awarded a Supply Arrangement

Inactive Supplier:

The bidder has met the mandatory technical requirements of this bid solicitation and is awaiting completion of the security clearance process and/or Integrity Provisions verification. As a result, the bidder is not "fully compliant" and cannot be issued a Supply Arrangement. Provided the bidder agrees to extend their bid validity period, the inactive supplier's bid will remain valid up to the time of the next re-competition process for ProServices. ProServices will consider issuing a Supply Arrangement to this Supplier, once the required clearance/verification is received and provided actions relating to this supplier have not occurred.

7. Corporate Changes to Suppliers

New Suppliers: If a new supplier is created as a result of a corporate change that occurred less than one year before the closing date of the specific quarter that is currently opened, (identified in Part 2 – Supplier Instructions, item 5 of the Request for Supply Arrangement solicitation as well as item 4.3 of the Supply Arrangement), Canada may, despite the Standard Instructions 2008-5.8 and General Conditions 2020-3.e, consider all of the following:

1. the one year minimum requirement to be met for the new entity, and
2. the transfer of a Supply Arrangement, and
3. allowing the carry-over of existing information already on file, if applicable,

Existing Suppliers: If an existing supplier undergoes a corporate change, Canada may, despite the Standard Instructions 2008-5.8 and General Conditions 2020-3.e, consider all of the following:

1. the transfer of a Supply Arrangement, and
2. allowing the carry-over of existing information already on file, if applicable,

The new/existing supplier must certify to all of the following:

- a) The corporate change was solely for tax or other purposes unrelated to the business of the other legal entities;
- b) The corporate change does not affect the ability of the new/existing supplier to carry on the business that had been carried on by the previous legal entity or entities;
- c) The new/existing supplier has carried on the business on behalf of all of the other legal entity or entities involved, uninterrupted from the date of the corporate change;
- d) The new/existing supplier maintains the same assets, undertakings, operational capability, skills and resources as the other legal entity or entities had maintained before the corporate change;
- e) The other legal entity or entities has or have each carried on business, uninterrupted and in the normal course, for at least one year;
- f) The new/existing supplier did not reorganize or restructure due to bankruptcy;
- g) The new/existing supplier and its affiliates are in compliance with the 'Integrity Provisions' certification; and
- h) The new/existing supplier is security cleared to the same level as the other legal entity or entities.

In order for the information from one Supply Arrangement to be transferred to the new/existing supplier, the new/existing supplier must submit an electronic bid through the Centralized Professional Services System (CPSS) ePortal (<https://sspc-fournisseur-cpss-supplier.tpsgc-pwgsc.gc.ca/Indiquerouvertureession-ShowLogin-Eng.action>).

The timeline to process the transfer of information from one Supply Arrangement to the new/existing supplier in the CPSS e-Portal may take up to six months as the submission will be evaluated along with all other bids submitted under the quarter that is being evaluated. However, if the new/existing supplier has agreed to absorb the cost involved in processing the transfer of information from one Supply Arrangement to the new/existing supplier, then this can be requested through the ProServices method of supply and will cost \$3,000 with an anticipated 2 to 4 week turn around.

PART 5 - CERTIFICATIONS

1. Mandatory Certifications Required Precedent to Issuance of a Supply Arrangement

Suppliers must provide the required certifications and related documentation prior to being issued a Supply Arrangement. ProServices may declare a bid non-compliant if the required certifications are not completed and submitted by the date requested by ProServices.

The bid may be deemed overall non-compliant if any certification made by the bidder is untrue, whether made knowingly or unknowingly.

Compliance with the certifications bidders provide to ProServices is subject to verification by ProServices during the evaluation period (before issuance of a Supply Arrangement) as well as any time after issuance of a Supply Arrangement. The Supply Arrangement Authority will have the right to ask for additional information to verify bidders' compliance with the certifications before issuance of a Supply Arrangement.

Failure to comply with the certifications, to provide the related documentation or to comply with the request of the Supply Arrangement Authority for additional information may render the bid submission overall non-compliant and in the case of an active supply arrangement, may result in the supply arrangement being deactivated.

The certifications listed hereunder are required as part of the electronic bid submission of this bid solicitation. All Certifications can be found within the 'Certifications' link below the Table of Contents on the front page of the electronic bid. Bidders are required to input information and submit through the CPSS e-Portal Data Collection Component. Also, additional information to substantiate these certifications may be requested by ProServices during the bid evaluation period, all of which is explained below:

a) Security

As previously stated in Part 4, Item 5, a minimum Designated Organizational Screening (DOS) must be held by the bidder before being awarded a ProServices supply arrangement.

To provide information for this certification, the bidder must:

- i. complete the fields applicable to this certification in the DCC of the CPSS ePortal (See Attachment B)

Should the bidder require sponsorship in order to obtain the minimum DOS clearance, the bidder should read the 'Sponsorship Certification' in bullet (h) of this section.

b) Federal Contractor's Program for Employment Equity Certification – Not applicable

Please note that the Federal Contractor's Program for Employment Equity certification no longer applies to the list of ProServices mandatory certifications as it has changed to a notification and can be found under Part 2, Item 10: Federal Contractor's Program for Employment Equity Notification of this solicitation. Although this certification can still be found in the DCC of the CPSS ePortal, it does not require any input by the bidder (i.e. it can be left blank).

c) Former Public Servant Certification

This bid solicitation requires that a bidder submit information through the DCC regarding the bidder's status with respect to being a former public servant in receipt of a pension. If, as a result of this bid solicitation, a Supply Arrangement is issued, the name of the Supplier who is in receipt of a pension will be posted on the ProServices web site.

To demonstrate compliance with this certification, all bidders must:

- i. Answer the question to confirm if the bidder is a former public servant. If yes, complete the remainder of these fields within this certification in the DCC of the CPSS ePortal (See Attachment B)
- ii. Provide if requested by ProServices, additional information with regard to the Former Public Servant Status.

Also refer to Part 2, Item 9 for more information on the Former Public Servant – Notification.

d) Aboriginal Supplier Certification

In accordance with the Procurement Strategy for Aboriginal Business (PSAB) announced on March 27, 1996, requirements designated by federal government departments as set aside under PSAB will be restricted to qualified Aboriginal businesses. Even though a procurement is set aside under PSAB, all applicable procurement policies and procedures must be followed.

To demonstrate compliance with this certification, the bidder must:

- i. Answer the question to confirm if the bidder is an Aboriginal bidder. If yes, complete the remainder of these fields within this certification in the DCC of the CPSS ePortal (See Attachment B)
- ii. Provide when requested by ProServices the Aboriginal Certification that can be found in Attachment C, Item 1.

Bidders should also ensure that they are listed in the Indigenous and Northern Affairs Canada's Aboriginal Business Directory at <http://www.aadnc-aandc.gc.ca/eng/1100100033057/1100100033058>. Additional information on becoming an Aboriginal supplier can also be found at the above mentioned link.

e) Grandfather Certification

The Grandfather certification is applicable to:

- 1) existing ProServices Suppliers (who do not have a Standing Offer or Supply Arrangement with TBIPS and/or TSPS (task based)) who wish to grandfather existing data into their electronic bid submission, OR
- 2) existing ProServices suppliers who also have a TBIPS and/or TSPS (task based) standing offer or supply arrangement who are submitting to ProServices to add their awarded categories from TBIPS and/or TSPS (task based) to their ProServices supply arrangement, OR
- 3) new ProServices suppliers who also have a SO and/or SA from TBIPS and/or TSPS (task based) who are submitting to ProServices for the first time and are thereby allowing ProServices to grandfather their compliant categories from these methods of supply into their ProServices submission
- 4) new/existing ProServices suppliers who wish to grandfather existing information into their electronic bid submission as a result of a change in corporate structure.

To demonstrate agreement with this certification, the bidder must:

- i. Select the checkbox applicable to this certification in the DCC of the CPSS ePortal (See Attachment B)
- ii. Provide when requested by ProServices the Grandfather Certification that can be found in

Attachment C, Item 2.

f) Workforce Reduction Program Certification

As a result of programs to reduce the public service, bidders must provide information regarding their status as former public servants in receipt of a lump sum payment.

To demonstrate compliance with this certification, all bidders must:

- i. Answer the question to confirm if the bidder is a former public servant in receipt of a lump sum payment. If yes, complete the remainder of these fields within this certification in the DCC of the CPSS ePortal (See Attachment B)
- ii. Provide if requested by ProServices, additional information concerning this certification.

g) Integrity Provisions – Associated Information

By submitting a bid, the bidder certifies that the bidder and its affiliates are in compliance with the provisions in the [2008 \(2017-04-27\)](#) Standard Instructions, Section 01: Integrity Provisions - Arrangement (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual/1/2008/17>).

To demonstrate agreement with this certification, all bidders must:

- i. Select the checkbox applicable to this certification in the DCC of the CPSS ePortal (See Attachment B)
- ii. Provide when requested by ProServices the Integrity Provisions information found in Attachment C, Item 3.

h) Security Sponsorship

Bidders may request that ProServices consider security sponsorship for their company for initial DOS clearance or to upgrade the bidder to the next security level. Such sponsorship is only available for one level of upgrade at a time.

To request security sponsorship, the bidder must:

- i. Complete the fields applicable to this certification in the DCC of the CPSS ePortal (See Attachment B)
- ii. Provide when requested by ProServices the Security Sponsorship Certification that can be found in Attachment C, Item 4.

If the bidder is a joint venture, sponsorship can be requested for individual joint venture members.

Note: This request can be made at any time before or after bid closing by sending the request to the following email address: TPSGC.ProServices.PWGSC@tpsgc-pwgsc.gc.ca. If sponsorship is anticipated, the bidder is encouraged to contact ProServices as soon as possible so that the process can be started. There is no need for the bidder to wait for the solicitation to close before advising ProServices of the need to be sponsored.

i) Bidder's Statement

The bidder's Statement is a certification whereby bidders are certifying that all the information being provided in their electronic submission is true.

To demonstrate agreement with this certification, the bidders must:

- i. Select the checkbox applicable to this certification in the DCC of the CPSS ePortal (See Attachment B)

- ii. Provide when requested by ProServices the Bidder's Statement that can be found in Attachment C, Item 5.

C. Resulting Contract Clauses

Annex A – Streams and Categories - The requirements for services of each Supplier are a part of each individual Supply Arrangement, attached as Annex A.

A. **Supply Arrangement**

1. **Arrangement (Streams and Categories)**

ProServices is a mandatory method of supply for professional services valued below the Canada-Korea Free Trade Agreement (CKFTA) threshold. These supply arrangements offers federal departments across Canada the flexibility to either direct a contract to a pre-qualified supplier for requirements below \$25,000, or to compete requirements valued below the CKFTA threshold by inviting a minimum of two (2) pre-qualified suppliers.

The Supply Arrangement covers the work described in the ProServices Streams and Categories as detailed at the following link: [ProServices - Streams and Categories \(http://www.tpsgc-pwgsc.gc.ca/app-acq/sp-ps/vltcat-strmcat-eng.html\)](http://www.tpsgc-pwgsc.gc.ca/app-acq/sp-ps/vltcat-strmcat-eng.html).

The requirements for services of each Supplier are a part of each individual Supply Arrangement, attached as Annex A.

2. **Security Requirement**

- 2.1 The Supplier must, at all times during the performance of the Supply Arrangement hold a valid Designated Organization Screening (DOS), issued by the Canadian Industrial Security Directorate (CISD), Public Works and Government Services Canada (PWGSC). The Supply Arrangement Authority may verify the Supplier's security clearance with CISD of PWGSC at any time during the period of the Supply Arrangement.
- 2.2 The Supplier personnel requiring access to sensitive work site(s) must each hold a valid Reliability Status, granted or approved by CISD/PWGSC.
- 2.3 Subcontracts which contain security requirements are not to be awarded without the prior written permission of CISD/PWGSC.
- 2.4 The Supplier must comply with the provisions of the:
 - a. Security Requirements Check List
 - b. Industrial Security Manual (Latest Edition).
- 2.5 The requirements to be procured under this Supply Arrangement are subject to the requirements in the Security Requirement Check Lists (SRCL's) identified in each individual bid solicitation. Samples of possible SRCL's are accessible through the link [Common Centralized Professional Services: Security Requirement Checklists \(http://www.tpsgc-pwgsc.gc.ca/app-acq/spc-cps/31-eng.html\)](http://www.tpsgc-pwgsc.gc.ca/app-acq/spc-cps/31-eng.html) but other SRCL's may be used. Each bid solicitation will identify the SRCL that will apply to any resulting contract.

Note to Suppliers: In the case of Joint Ventures (JV), the level of corporate security attainable through CISD of PWGSC for the Joint Venture entity is the level in common that is held by all members of the JV. For example: a Joint Venture with five (5) members is comprised of four members holding a valid Facility Security Clearance (FSC) at the Secret level and one member holding a valid Designated Organization Screening (DOS). The highest corporate security level for which the Joint Venture would be considered under this SA framework would be DOS, until such time as the member holding a valid DOS clearance has requested sponsorship via the Supply Arrangement Authority and obtained a valid FSC at the secret level issued by CISD

3. Standard Clauses and Conditions

All clauses and conditions identified in the Supply Arrangement and resulting contract(s) by number, date and title are set out in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

3.1 General Conditions

[2020 \(2016-04-04\) General Conditions - Supply Arrangement - Goods or Services](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual/3/2020/14) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual/3/2020/14>), apply to and form part of the Supply Arrangement.

3.2 Supply Arrangement Reporting

The Supplier must compile and maintain records on its provision of goods, services or both to the federal government under contracts resulting from the Supply Arrangement. This data must include all purchases paid for by a Government of Canada Acquisition Card.

The Supplier must provide this data in accordance with the reporting requirements detailed in [Quarterly Usage Report Instructions](http://www.tpsgc-pwgsc.gc.ca/app-acq/spc-cps/ocannexd-soannexd-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/app-acq/spc-cps/ocannexd-soannexd-eng.html>). If no goods or services are provided during a given period, the Supplier must still provide a "NIL" response.

The quarterly reporting periods are defined as follows:

Quarter	Period to be covered	Due on or before
Q1	April 1 to June 30	July 15
Q2	July 1 to September 30	October 15
Q3	October 1 to December 31	January 15
Q4	January 1 to March 31	April 15

Failure to provide fully completed quarterly reports in accordance with the above instructions may result in the setting aside of the Supply Arrangement and the application of a vendor performance corrective measure.

4. Term of Supply Arrangement

4.1 Period of Supply Arrangement

The period of the Supply Arrangement is from award date until such time as Canada chooses to re-compete the Supply Arrangement, no longer deems the Supply Arrangements necessary, or proceeds with a different procurement vehicle.

Canada may, by notice in writing to all Supply Arrangement suppliers and by posting on the [Government Electronic Tendering System](https://buyandsell.gc.ca/procurement-) (<https://buyandsell.gc.ca/procurement->

[data/tenders](#)), cancel this Supply Arrangement or individual categories or stream(s) by giving all Supply Arrangement suppliers at least 30 calendar days notice of the cancellation.

4.2 Request for Supply Arrangement (RFSA) Bid Solicitations

As part of its continuous effort to make it easier for Suppliers to do business with Canada, through this re-competition, Canada is making Supply Arrangements (SA) valid from date of SA issuance until such time as Canada:

1. chooses to re-compete the SA, or
2. no longer deems the SAs necessary, or
3. chooses to proceed with a different procurement vehicle for the requirement if it considers such action appropriate.

A permanent notice will be posted on the Government Electronic Tendering Service (GETS) for the duration of the Supply Arrangement (SA) describing this procurement vehicle which will invite additional suppliers to submit bids to become pre-qualified Suppliers and to be issued SAs for the provision of Services.

New Suppliers: Throughout the Supply Arrangement Period, new bidders may submit bids to become pre-qualified Suppliers.

Existing pre-qualified Suppliers: This will also permit pre-qualified Suppliers to submit bids to modify their existing SA. No existing Supplier will be removed from the qualified supplier list because of the addition of new Suppliers.

Number of Supply Arrangements: The Supplier acknowledges that Canada may issue an unlimited number of Supply Arrangements and may continue to issue Supply Arrangements to suppliers throughout the Supply Arrangement period.

Evolving Requirement: During a Refresh process, PWGSC may add new and (or) remove and (or) modify existing streams and categories

Canada reserves the right to issue Supply Arrangements to bidders who qualify throughout the entire period of the Supply Arrangement.

4.3 Quarterly Refreshes

The bid solicitation has established periods (also known as “quarters”), which align with fiscal year quarters, as demonstrated in the below table.

FY Quarter:	Opening Date (first business day of the month):	Closing Date (last business day of the month):	Estimated Award Date (Subject to Change)
Q1	April	June	End of September
Q2	July	September	End of December
Q3	October	December	End of March
Q4	January	March	End of June

N° de l'arrangement - Supply Arrangement No. E60ZT-180024/C	N° de la modif. - Amd. No. 004	Id de l'acheteur - Buyer ID 002ZT
N° de réf. du client - Client Ref. No. E60ZT-180024/C	N° du dossier - File No. 002ZT. E60ZT-180024/C	FMS No/ N° VME - CCC No/N° CCC

Each quarter is assigned a period number which is reflected on the Solicitation Dashboard of the CPSS ePortal which will increase as quarters pass. Each period (i.e. Quarter) will automatically close in the Data Collection Component of the CPSS ePortal as per the date and time indicated on the Solicitation Dashboard of the CPSS ePortal. Data cannot be submitted against a "closed" period. Only those bidders who have submitted data by the closing date and time of a period will be evaluated. Please note that the DCC will not allow a bidder to submit another bid to a subsequent period until the results of their previously submitted bid is published.

Quarterly Refreshes allow new bidders to become qualified. New bidders may submit a bid for a Supply Arrangement at any time by responding to a Quarterly Refresh.

Existing pre-qualified Suppliers who have been issued a Supply Arrangement, will not be required to submit a new bid under Quarterly Refreshes. An existing Supplier may propose to modify its supply arrangement by submitting a bid against a Quarterly Refresh.

Canada will evaluate in each quarter those submissions received for that quarter as identified in the above table. This schedule may require a revision due to operational requirements and in which case bidders will be advised. Participation in a refresh evaluation is entirely optional and not required to maintain any Supply Arrangement.

5.2 Supplier's Representative

The individual that is identified as the Main Supplier Contact in the CPSS ePortal at the time of enrolment is considered the supplier's representative and is the central point of contact for the Supplier on all matters pertaining to this Supply Arrangement. The Supplier confirms that this individual has the authority to bind the Supplier. It is the Supplier's sole responsibility to ensure that the information related to the Supplier Representative is correct.

If a new Supplier Representative is required, the Supplier will inform CPSS by e-mail at tpsgc.sspc-cpss.pwgsc@tpsgc-pwgsc.gc.ca, and provide the following information:

- Name
- Telephone Number
- E-mail

The Supplier may designate another individual to represent the Supplier for administrative and technical purposes under any contract resulting from this SA.

5.3 Supplier's CPSS ePortal Information

Suppliers are responsible for the maintenance of their tombstone data in the CPSS ePortal. Suppliers must also safeguard the credentials released to the Main Supplier Contact (MSC) and Supplier's Contacts that enable access to the Supplier Module.

Canada will not delay or cancel any solicitation or contract process due to a supplier's inability to access, modify or validate such credentials, or because of any claim that such credentials were used without proper authorization.

6. Federal Department Users

Subject to signing a Master Level User Agreement, the Federal Department Users (also called Clients or Identified Users) include any government department, agency or Crown Corporation listed in Schedules I, I.1, II, III, IV, and V of the *Financial Administration Act*, R.S., 1985, c. F-11 and any other party for which the Department of Public Works and Government Services has been authorized to act from time to time under section 16 of the *Department of Public Works and Government Services Act*.

Canada may, at any time, withdraw authority from any of the Federal Department Users to use the Supply Arrangement.

7. Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the below list, the wording of the document that first appears on that list has priority over the wording of any document that subsequently appears on that list:

- a. the articles of the Supply Arrangement;
- b. the general conditions 2020 (2016-04-04), General Conditions – Supply Arrangement – Goods or Services;
- c. Annex A: Streams and Categories (by Region/Metropolitan Area);

N° de l'arrangement - Supply Arrangement No. E60ZT-180024/C	N° de la modif. - Amd. No. 004	Id de l'acheteur - Buyer ID 002ZT
N° de réf. du client - Client Ref. No. E60ZT-180024/C	N° du dossier - File No. 002ZT. E60ZT-180024/C	FMS No/ N° VME - CCC No/N° CCC

- d. the Supplier's proposal received in response to the Request for Supply Arrangement E60ZT-180024.

8. Certifications and Additional Information

Compliance with the certifications provided by the Supplier in the arrangement is a condition of the Supply Arrangement (SA) and subject to verification by Canada during the term of the SA and of any resulting contract that would continue beyond the period of the SA. The ongoing cooperation in providing additional information are conditions of issuance of the SA and failure to comply will constitute the supplier in default. If it is determined that any certification made by the Supplier in the arrangement is untrue, whether made knowingly or unknowingly, Canada has the right to terminate any resulting contract for default and suspend or cancel the SA.

9. Applicable Laws

The Supply Arrangement (SA) and any contract resulting from the SA must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario unless otherwise stipulated in the Supplier's Arrangement or resulting contract.

10. Suspension or Cancellation of qualification by Canada

In addition to the circumstances identified in General Conditions - Supply Arrangement - Goods or Services 2020 09 (2016-04-04), Canada may, by sending written notice to the Supplier, suspend or cancel the Supply Arrangement where the Supplier has made public any information that conflicts with the terms, conditions, pricing or availability of systems identified in this Supply Arrangement, or where the Supplier is in default in carrying out any of its obligations under this Supply Arrangement.

11. Aboriginal Business Certification

Where an Aboriginal Business Certification has been provided, the Supplier warrants that its certification of compliance is accurate and complete and in accordance with the "Requirements for the Set-aside Program for Aboriginal Business" detailed in Annex 9.4 of the Supply Manual.

If such a Certification has been provided, the Supplier must keep proper records and documentation relating to the accuracy of the certification provided to Canada. The Contractor must obtain the written consent of the Contracting Authority before disposing of any such records or documentation before the expiration of six (6) years after final payment under the Contract, or until settlement of all outstanding claims and disputes, under the Contract, whichever is later. All such records and documentation must at all times during the retention period be open to audit by the representatives of Canada, who may make copies and take extracts. The Supplier must provide all reasonably required facilities for any audits.

Nothing in this clause must be interpreted as limiting the rights and remedies which Canada may otherwise have pursuant to the Contract.

12. Comprehensive Land Claims Area

The Supply Arrangement is not to be used for deliveries within a Comprehensive Land Claims Area (CLCA). All requirements for delivery within a CLCA are to be processed individually outside of the ProServices method of supply.

13. Environmental Considerations

As part of Canada's policy directing federal departments and agencies to take the necessary steps to acquire products and services that have a lower impact on the environment than those traditionally acquired, Suppliers should consider the below measures:

a. Paper consumption

- Provide and transmit draft reports, final reports, other documents and bids in electronic format. Should printed material be required, double sided printing in black and white format is the default unless otherwise specified by the Federal Department User.
- Printed material is requested on minimum recycled content of 30% and/or certified as originating from a sustainably managed forest.
- Recycle unneeded printed documents (in accordance with Security Requirements).

b. Travel requirements

- The Supplier is encouraged to use video and/or teleconferencing where possible to cut down unnecessary travel.
- Use of Properties with Environmental Ratings: Contractors to the Government of Canada may access the [PWGSC Accommodation directory](http://rehelv-acrd.tpsgc-pwgsc.gc.ca/ACRDS/hebergement-accommodation-eng.aspx) (<http://rehelv-acrd.tpsgc-pwgsc.gc.ca/ACRDS/hebergement-accommodation-eng.aspx>), which includes Eco-Rated properties. When searching for accommodation search for properties with Environmental Ratings, identified by Green Keys or Green Leafs that will honour the pricing for contractors.
- Use of public/green transit where feasible.

14. Travel and Living

The Travel and Living expenses are calculated differently between the Regions and Metropolitan areas and this may affect the total cost of a professional services contract as a result of a bid solicitation under the Supply Arrangement. Accordingly, if any contract resulting from a solicitation under this Supply Arrangement permits payment to a Contractor in its Basis of Payment for Travel and Living expenses, such expense will only be reimbursed in accordance with the information provided on the [Supply Arrangement Travel and Living Information](http://www.tpsgc-pwgsc.gc.ca/app-acq/spc-cps/rsama-satli-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/app-acq/spc-cps/rsama-satli-eng.html>) web page of the CPSS website.

B. Bid Solicitation

1. Bid Solicitation Documents

Canada will use the bid solicitation templates for medium complexity requirements; available in the [Standard Acquisition Clauses and Conditions Manual](https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual) (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>).

The bid solicitation will contain as a minimum the following:

2. Bid Solicitation Process - Requirements Valued below the Canada-Korea Free Trade Agreement (CKFTA) threshold

2.1 Bids

Bids will be solicited for specific requirements within the scope of the Supply Arrangement from Suppliers who have been issued a Supply Arrangement.

Competitive Requirements:

A minimum of two Suppliers must be invited by the Federal Department User to submit a proposal via e-mail by:

- a. selecting by name two Suppliers from the CPSS Client Module search result list, or
- b. selecting by name one Supplier from the CPSS Client Module search results list and the second Supplier being selected randomly by the CPSS Client Module, or
- c. not selecting any Supplier by name in which case the CPSS Client Module will select by random two Supplier that appear on the CPSS search result list.

The CPSS Client Module will automatically extend the search completed at a metropolitan area to the regional level, if the search results produce a list of less than 3 suppliers. The value of any bid, at the time of bid closing, must not exceed the Canada-Korea Free Trade Agreement threshold (including all taxes, travel and living, amendments, etc.).

It is the responsibility of the contracting authority to determine if any trade agreements will apply to their requirement based on their requirement's associated dollar value (<https://buyandsell.gc.ca/policy-and-guidelines/supply-manual/section/1/25>). If it is determined that a trade agreement does apply to their requirement the contracting officer will prepare and publish a bilingual Notice of Proposed Procurement on Buy and Sell for a minimum of 5 calendar days.

Directed Requirements:

Federal Department Users may enter into a contract with a Supplier appearing in the results from a search conducted in the CPSS Client Module for contracts valued below \$25,000 (including taxes, travel and living, amendments, etc.) where the contracting officer deems it cost effective to do so, as permitted under the *Government Contracting Regulations* and provided that the Federal Department User meets all required internal approvals specific to their department.

2.2 Request to Bid by Pre-Qualified Supplier

Should an uninvited pre-qualified ProServices supplier wish to be invited to a ProServices Request for Proposal (RFP) process that is for a requirement valued below the CKFTA threshold but to which another trade agreement applies, it may contact the Contracting Authority to request an invitation at any time prior to the published bid closing date. An invitation will be sent to the ProServices pre-qualified supplier providing:

- a) that a trade agreement applies to the requirement,
- b) the pre-qualified supplier appears on the Centralized Professional Services System (CPSS) original search filtering result list, and
- c) if the request to bid does not impede on the efficiency of the procurement process.

Canada is under no obligation to extend the bid closing date following such a request.

2.3 Minimum Period to submit bid

As part of the *harmonized business rules*, for competitive contracts valued below the CKFTA threshold, a minimum of five calendar days must be given to the bidders to respond. For direct contracting (contracts valued below \$25,000), it is up to the *Federal Department User* to determine the minimum number of days.

2.4 Identification of Contracting Authorities

Provided a Federal Department User has the legal authority to contract, it may choose to award contracts under this Supply Arrangement below the CKFTA threshold (including taxes, travel and living, amendments, etc.).

(Applicable to IT Requirements only)

- a. Any reference in this section to damages caused by the Contractor also includes damages caused by its employees, as well as its subcontractors, agents, and representatives, and any of their employees. This section applies regardless of whether the claim is based in contract, tort, or another cause of action. The Contractor is not liable to Canada with respect to the performance of or failure to perform the Contract, except as described in this section and in any section of the Contract pre-establishing any liquidated damages. The Contractor is only liable for indirect, special or consequential damages to the extent described in this Article, even if it has been made aware of the potential for those damages.
- b. **First Party Liability:**
 - i. The Contractor is fully liable for all damages to Canada, including indirect, special or consequential damages, caused by the Contractor's performance or failure to perform the Contract that relate to:
 - A. any infringement of intellectual property rights to the extent the Contractor breaches the section entitled "Intellectual Property Infringement and Royalties";
 - B. physical injury, including death.
 - ii. The Contractor is liable for all direct damages affecting real or tangible personal property owned, possessed, or occupied by Canada.
 - iii. Each of the Parties is liable for all direct damages resulting from its breach of confidentiality under the Contract. Each of the Parties is also liable for all indirect, special or consequential damages in respect of its unauthorized disclosure of the other Party's trade secrets (or trade secrets of a third party provided by one Party to another under the Contract) relating to information technology.
 - iv. The Contractor is liable for all direct damages relating to any encumbrance or claim relating to any portion of the Work for which Canada has made any payment. This does not apply to encumbrances or claims relating to intellectual property rights, which are addressed under (i.A) above.
 - v. The Contractor is also liable for any other direct damages to Canada caused by the Contractor in any way relating to the Contract, including:
 - A. any breach of the warranty obligations under the Contract, up to the total amount paid by Canada (including any applicable taxes) for the goods and services affected by the breach of warranty; and

Canada is responsible for maintaining an adequate backup of its records and data.

c. Third Party Claims:

- i. Regardless of whether a third party makes its claim against Canada or the Contractor, each Party agrees that it is liable for any damages that it causes to any third party in connection with the Contract as set out in a settlement agreement or as finally determined by a court of competent jurisdiction, where the court determines that the Parties are jointly and severally liable or that one Party is solely and directly liable to the third party. The amount of the liability will be the amount set out in the settlement agreement or determined by the court to have been the Party's portion of the damages to the third party. No settlement agreement is binding on a Party unless its authorized representative has approved the agreement in writing.
- ii. If Canada is required, as a result of joint and several liability, to pay a third party in respect of damages caused by the Contractor, the Contractor must reimburse Canada by the amount finally determined by a court of competent jurisdiction to be the Contractor's portion of the damages to the third party. However, despite paragraph (i), with respect to special, indirect, and consequential damages of third parties covered by this Section, the Contractor is only liable for reimbursing Canada for the Contractor's portion of those damages that Canada is required by a court to pay to a third party as a result of joint and several liability that relate to the infringement of a third party's intellectual property rights; physical injury of a third party, including death; damages affecting a third party's real or tangible personal property; liens or encumbrances on any portion of the Work; or breach of confidentiality.

16. Liability

(Applicable to Non-IT Requirements Only)

The Contractor is liable for any damage caused by the Contractor, its employees, subcontractors, or agents to Canada or any third party. Canada is liable for any damage caused by Canada, its employees or agents to the Contractor or any third party. The Parties agree that no limitation of liability or indemnity provision applies to the Contract unless it is specifically incorporated in full text in the Articles of Agreement. Damage includes any injury to persons (including injury resulting in death) or loss of or damage to property (including real property) caused as a result of or during the performance of the Contract.

17. Intellectual Property Infringement and Royalties

1. The Contractor represents and warrants that, to the best of its knowledge, neither it nor Canada will infringe any third party's intellectual property rights in performing or using the Work, and that Canada will have no obligation to pay royalties of any kind to anyone in connection with the Work.
2. If anyone makes a claim against Canada or the Contractor concerning intellectual property infringement or royalties related to the Work, that Party agrees to notify the other Party in writing immediately. If anyone brings a claim against Canada, according to Department of Justice Act, R.S., 1985, c. J-2, the Attorney General of Canada must have the regulation and conduct of all litigation for or against Canada, but the Attorney General may request that the Contractor defend Canada against the claim. In either case, the Contractor agrees to participate fully in the defence

and any settlement negotiations and to pay all costs, damages and legal costs incurred or payable as a result of the claim, including the amount of any settlement. Both Parties agree not to settle any claim unless the other Party first approves the settlement in writing.

3. The Contractor has no obligation regarding claims that were only made because:
- Canada modified the Work or part of the Work without the Contractor's consent or used the Work or part of the Work without following a requirement of the Contract; or
 - Canada used the Work or part of the Work with a product that the Contractor did not supply under the Contract (unless that use is described in the Contract or the manufacturer's specifications); or
 - the Contractor used equipment, drawings, specifications or other information supplied to the Contractor by Canada (or by someone authorized by Canada); or
 - the Contractor used a specific item of equipment or software that it obtained because of specific instructions from the Contracting Authority; however, this exception only applies if the Contractor has included the following language in its own contract with the supplier of that equipment or software: "[Supplier name] acknowledges that the purchased items will be used by the Government of Canada. If a third party claims that equipment or software supplied under this contract infringes any intellectual property right, [supplier name], if requested to do so by either [Contractor name] or Canada, will defend both [Contractor name] and Canada against that claim at its own expense and will pay all costs, damages and legal fees payable as a result of that infringement." Obtaining this protection from the supplier is the Contractor's responsibility and, if the Contractor does not do so, it will be responsible to Canada for the claim.
4. If anyone claims that, as a result of the Work, the Contractor or Canada is infringing its intellectual property rights, the Contractor must immediately do one of the following:
- take whatever steps are necessary to allow Canada to continue to use the allegedly infringing part of the Work; or
 - modify or replace the Work to avoid intellectual property infringement, while ensuring that the Work continues to meet all the requirements of the Contract; or
 - take back the Work and refund any part of the Contract Price that Canada has already paid.

If the Contractor determines that none of these alternatives can reasonably be achieved, or if the Contractor fails to take any of these steps within a reasonable amount of time, Canada may choose either to require the Contractor to do (c), or to take whatever steps are necessary to acquire the rights to use the allegedly infringing part(s) of the Work itself, in which case the Contractor must reimburse Canada for all the costs it incurs to do so.

18. No Responsibility to Pay for Work not performed due to Closure of Government Offices

- Where the Contractor, its employees, subcontractors, or agents are providing services on government premises under the Contract and those premises are inaccessible because of the evacuation or closure of government offices, and as a result no work is performed, Canada is not responsible for paying the Contractor for work that otherwise would have been performed if there had been no evacuation or closure.
- If, as a result of any strike or lock-out, the Contractor or its employees, subcontractors or agents cannot obtain access to government premises and, as a result, no work is performed, Canada is

not responsible for paying the Contractor for work that otherwise would have been performed if the Contractor had been able to gain access to the premises.

19. Translation of Documentation

The Contractor agrees that Canada may translate in the other official language any documentation delivered to Canada by the Contractor that does not belong to Canada. The Contractor acknowledges that Canada owns the translation and that it is under no obligation to provide any translation to the Contractor. Canada agrees that any translation must include any copyright notice and any proprietary right notice that was part of the original. Canada acknowledges that the Contractor is not responsible for any technical errors or other problems that may arise as a result of the translation.

20. Replacement of Specific Individuals

- 1) If specific individuals are identified in the Contract to perform the Work, the Contractor must provide the services of those individuals unless the Contractor is unable to do so for reasons beyond its control.
- 2) If the Contractor is unable to provide the services of any specific individual identified in the Contract, it must provide a replacement with similar qualifications and experience. The replacement must meet the criteria used in the selection of the Contractor and be acceptable to Canada. The Contractor must, as soon as possible, give notice to the Contracting Authority of the reason for replacing the individual and provide:
 - (a) the name, qualifications and experience of the proposed replacement; and
 - (b) proof that the proposed replacement has the required security clearance granted by Canada, if applicable.
- 3) The Contractor must not, in any event, allow performance of the Work by unauthorized replacement persons. The Contracting Authority may order that a replacement stop performing the Work. In such a case, the Contractor must immediately comply with the order and secure a further replacement in accordance with subsection 2. The fact that the Contracting Authority does not order that a replacement stop performing the Work does not relieve the Contractor from its responsibility to meet the requirements of the Contract.

21. Ownership

- 1) Unless provided otherwise in the Contract, the Work or any part of the Work belongs to Canada after delivery and acceptance by or on behalf of Canada.
- 2) However if any payment is made to the Contractor for or on account of any Work, either by way of progress or milestone payments, that work paid for by Canada belongs to Canada upon such payment being made. This transfer of ownership does not constitute acceptance by Canada of the Work or any part of the Work and does not relieve the Contractor of its obligation to perform the Work in accordance with the Contract.
- 3) Despite any transfer of ownership, the Contractor is responsible for any loss or damage to the Work or any part of the Work until it is delivered to Canada in accordance with the Contract. Even

after delivery, the Contractor remains responsible for any loss or damage to any part of the Work caused by the Contractor or any subcontractor.

- 4) Upon transfer of ownership to the Work or any part of the Work to Canada, the Contractor must, if requested by Canada, establish to Canada's satisfaction that the title is free and clear of all claims, liens, attachments, charges or encumbrances. The Contractor must execute any conveyances and other instruments necessary to perfect the title that Canada may require

22. Identification Protocol Responsibilities

The Contractor will be responsible for ensuring that any of its resources, representatives or subcontractors complies with the following self-identification requirements:

- a. Contractors who attend a Government of Canada meeting (whether internal or external to Canada's offices) must identify if they are a Contractor prior to the commencement of the meeting, to ensure that each meeting participant is aware of the fact that the individual is not a Government of Canada employee;
- b. During the performance of any Work at a Government of Canada site, the Contractor must be clearly identified at all times as being a Contractor; and
- c. If a Contractor requires the use of the Government of Canada's e-mail system in the performance of the Work, then the individual must clearly identify him or herself as a Contractor in all electronic mail including the signature block as well as under "Properties". This identification protocol must also be used in all other correspondence, communication, and documentation;
- d. If Canada determines that the Contractor are in breach of any obligation stated in this clause, upon written notice from Canada the Contractor must submit a written action plan describing the corrective measures it will implement to eliminate the recurrence of the problem. The Contractor will have five working days to deliver the action plan to the Client or the Contracting Authority, and twenty working days to rectify the underlying problem; and
- e. In addition to any other rights it has under the Contract, Canada may terminate the Contract for default if the corrective measures required of the Contractor described above are not met.
