PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

4.1 Evaluation Procedures

Bids will be assessed in accordance with the entire requirement of the bid solicitation.

4.1.1 Mandatory Criteria

The Bidders must comply with the mandatory criteria. Any bid that fails to meet the following mandatory criteria will be declared non-responsive. Each criteria will be addressed separately:

- a) Comply with Terms and Conditions as stipulated in this bid solicitation;
- b) First page of the RFP must be signed and returned with Financial Bid (RFP - Annex A - Quotation);
- c) Comply with the Mandatory Requirements stipulated in RFP - Annex A – Quotation; and

The rate given by the Bank of Canada in effect on the bid solicitation closing date will be applied as a conversion factor to the bids submitted in foreign currency.

4.2 Basis of Selection

Bidders should note that all contract awards are subject to Canada's internal approvals process, which includes a requirement to approve funding in the amount of any proposed contract. Despite the fact that the Bidder may have been recommended for contract award, a contract will only be awarded if internal approval is granted according to Canada's internal policies. If approval is not granted, no contract will be awarded.

Basis of Selection - Highest Combined Rating Score - Delivery Date and Price - MPC 2

A bid must comply with the requirements of the bid solicitation and meet all mandatory criteria to be declared responsive. The responsive bid that obtains the Total Highest Combined Rating Score, on an item-by-item basis, will be recommend for award as follow:

- The bid with a total price that does not exceed 25% of the lowest bid price, on an item-by-item basis, will be recommended for award; or
- Canada reserve the right, in its sole discretion, depending on the criticality of the requirement, to award the contract to the Total Highest Combined Rating Score with a total price exceeding 25% of the lowest bid price, on an item-by-item basis.

More than one contract(s) may be awarded as a result of this solicitation.

1. Rating - Delivery Date Score:

The Total Rating - Delivery Date Score will be computed for each responsive bid by converting the Proposed Delivery Date within the bid validity timeframe, using a point weighted formula with the Required Delivery Date, rounded to two decimal numbers, as follow:

Required Delivery Date – Proposed Delivery Date = number of days X weighted factor = Rating Delivery Date Score*

The scoring of the Delivery Date is done by:

- giving full point weight to the proposed Delivery Date on or before the Required Delivery Date; and
- the other bids will be given a prorated score based on the Required Delivery Date.

* Weighted factor for Delivery Date to be applied for MPC 2 requirement: 70%

2. Rating - Unit Price Score:

The Total Rating - Unit Price Score will be computed for each responsive bid by converting the Unit Price Score using a point weighted formula with the lowest price overall, rounded to two decimal numbers, as follow:

Lowest Overall Bid Price divided by Proposed Unit Price = difference in price X weighted factor = Rating Unit Price Score*

The scoring of the price is done by:

- giving full point weight to the lowest priced responsive bid; and
- the other bids being given a prorated score based on the lowest price overall.

* Weighted factor for Price to be applied for MPC 2 requirement: 30%

3. Calculation of the Total Highest Combined Rating Score:

The Total Highest Combined Rating Score will be computed for each responsive bid in accordance with the following formula:

Rating Delivery Date Score + Rating Unit Price Score = Total Highest Combined Rating Score

- 3.1 In the event of identical Total Highest Combined Rating Score occurring, then the bid with the Highest Rating - Delivery Date Score will become the top-ranked bidder.
