

T8080-220687**SNOW REMOVAL****Description of the Requirement**

Transport Canada is seeking a qualified company to perform the services of snow removal. The work involves the provision of labour, equipment, tooling, abrasive products, ice melters, and materials, as well as the supervision required for clearing, snow removal and the spreading of ice melters or abrasives depending on weather conditions.

There is a building to be serviced at 700 Leigh-Capreol, Dorval, Quebec, comprising two (2) parking lots, sidewalks and stairs (see Section A - Facility Plan)

Proposed Period of the Contract

The contract is for a firm year with an extension option for an additional four (4) years.

For the purpose of this contract, the snow removal season shall be defined as the entire period during which the snow falls or covers the parking lots, at least from November 1 to April 30 of each year.
